St. Agatha
By Jean Ann Mangold
All week long, Tom Flamboc and his senior conspirators prepared skits to announce the variety club's "Saints and Sinners" dance. "Give up your 'dum-dums, come to the dance," he said.
"Sorry Frosh, not this time. we are giving you a special mission, to search for the 'great pumpkin'."
Our spirited, freshman, however, could not ignore the mock. Monday morning found Senior Hall littered with "dum-dums" and perched atop a ladder was none other than the "great pumpkin".
Halloween night brought out the true colors of Aggie students: yellow, orchid and charreuse.
Sorrows and C.C.D. students were invited to attend. Winners of the awards given for the three best costumes, were Gary Kers and Bill Walters as Mr. and Mrs. Cannibal, Dan Nemes as Buster Brown and Joe Kuhn as Chickenman.
Also during the night, Father Varty awarded football letters to team members. The weekly trophies were also given, to Dan Hanlon for offense and Mike Brown for defense.
Sunday's game at St. Thomas Ann Arbor, the last game of the season was a victory for our side.
The pep rally preparing for the game was certainly the longest that we've had all year.
The skit, referred to as immortal and compared to "Doctor Zivago" and "The Sound of Music," was a take-off on "Bat Man" and centered around the theft of the great pumpkin.
So warped were the minds of it's creators, that to depict the "dynamic duo" walking up the side of a building, the audience was instructed to turn their heads sideways. The plot had a new twist however, Batman lost.
Winners of the Genesis Club's "Brotherhood is Our Business" speech elimination were Jessie Garden and David Brown.
John Breker, Paula Dow and Colleen Connolly also competed.

When you lock your car doors, you want to make sure they're locked. So do we.

Our engineers call it the passenger-guard door lock. It's on every door—front and rear—of every new Chevrolet, Pontiac, Oldsmobile, Buick and Cadillac. When you push the lock down, the door can't be opened until you pull the lock back up—even if someone should accidentally pull back on a door handle. And we didn't stop with a better lock. We also built you a better door to go with it, including the protection of new safety latches and hinges. From little things like locks, to big things like the GM-developed energy absorbing steering column, safety is one of the ways we've made our General Motors cars even better for '67. And can you think of a better way to make cars better? Neither could we.
