G-E Porta-Color Model M1288WD

Starting now, color television is for everybody. It's not too big. This new portable (we call it Porta-Color) has an 11" (diag. max.) screen and weighs only 25 pounds. It's not hard to tune. Magic Memory tuning makes G-E the easiest color set to tune! (All you do is turn the pre-tuned color dials until they point straight up.) It doesn't need an outside antenna — (if your black and white set doesn't need one). It has its own set of rabbit ears, so you can have color wherever you have an outlet. And it's not too expensive. Porta-Color costs just \$249.88 with no extras tacked on. It even comes with a free 90-day service warranty.

So starting now, there's nothing in the world between you and a color television set.

STOP IN AND SEE IT TODAY!

* The General Electric Company warrants the body casing of each "B" line General Electric portable color television set... free repair, including labor and parts in the event of manufacturing defects occurring during the first ninety (90) days from the date of original purchase, provided the receiver is returned to the nearest General Electric Television Service Center anywhere in the U.S.A.†

† All portable sets with a diagonal screen measurement of 15" or less.
