First Home Project Should be Workshop

GEE YOUR HOME improvement projects off to a good start with a handy workshop. It's easy to set up in the basement, garage or attle. You'll need countertop space, cabinets and storage areas. A practical and attractive idea is to install storage walls of perforated hardboard panels. The perforations accept brackets and backs which the holds shelves, tools and equipment. Everything is right at has d and the workshop always looks neat.

New Dress Will Perk Up Tired-Looking House

Is your house worn and board siding can be installed tired-boking? Is the exterior, right over the old siding. This dull and out at a pt 3 is ill provides extra inpulation and placular with cracked boards saves the 'trouble and expand peeling paint! pense of removing old boards.

The diagnosis may be poor boards.

This diagnosis may be sounded.

Pite nuality or improperty installed siding can do
more than detract from the
appearance of your house. It
can cause heat loss in winter,
forcelypure lair ronditioner ito
overglock in summer and result in a number of maintenance problems.

sult in a number of maintenance problems.

Residing is a practical solution. With a modern building material tike hard-board aiding, the job is meiner difficult for expensive and will end to the good looks at well as the life of your house.

The advantage of exterior hare board is that it is specially manifactured for outdoor use and will sat and up to year-pound weather without cracking, splitting or denting. Installation is easy because the siding is lightweight as well as hardy and can be would with ordinary carpenty looks.

pense of rem dving on boards.

Another asset of hardboard is its low-maintanance quality. Because it is an engineered wood product, the surface is free of knots or rough grain and takes, paint or stein easily. It can be kept fresh and newlooking with an occasional hosing down.

A wide choice of sidings makes it easy to select! Uteright one for your house whether the architectural style is traditional, contemporary or ranch.

A rough-textured surface is ideal for rustic ranch houses, board and batten panels and grooved vertical jaiding a rice of the surface is a surface in the surface is traditional panels and grooved vertical jaiding a rice of the surface is the surface in the surface in the surface is the surface in the surface is the surface in the surface in the surface in the surface is the surface in the surface in the surface in the surface is the surface in the surface in the surface in the surface is the surface in the surface in the surface in the surface is the surface in the surface in the surface in the surface in the surface is the surface in the surface in the surface in the surface is the surface in the surface is the surface in the surface in
