FOCUS ON BUSINESS

'Suburbia's Good Neighbor'

Business has an immense impact on the communities in which we live. Zoning, taxes, parks, education—the entire development pattern of a community—are closely involved with business activity. All too often, this relationship is ignored. It should not be.

For in the communities served by The Observer Newspaper Group — Livonia, Redford Township, Farmington, Plymouth, Garden City and Westland—business activity is expected at least to double in the next 15 years. To explore the meaning of business development for our area is our aim in this special section, as we Focus On Business.
