Wiretapping Illegal, Immoral

Like the man in the entertainment agent's office said:
"Don't call us, we'll call you."
This however, may be reversed if the proponents of legal wiretapping of telephone lines is permitted.
With the hue and cry of a certain seed.

proponents of legal wiretapping of telephone lines is permitted.

With the hue and cry of a certain segment of our society which sees a communist and a Mafia gang behind every corner, it is difficult to remove the senseless, emotional arguments from the national debate of wiretapping.

The issue has a special significance since a former Garden City Municipal Judge, Russell L. Swarthout, was removed from office following a conviction. last fall involving the alleged concealment of part of the earnings of a client. During the case brought by federal government, the government attorneys admitted that they sued electronic eavesdropping devices to obtain information on the case.

The Observer doesn't buy the line of "if you're Innocent, you don't have any

thing to worry about." This was usually cited as a foundation for opposing use of the fifth amendment to the United States Constitution.

As in that case, the innocent have as such to lose as the ones who are conspiring commit crimes with the use of telephones.

to commit crimes with the use of telephones. It tapping is allowed, especially by private persons, which seems to be not a rare occurence, then American citizens going about their everyday business can have their phone conversations overheard and be left open to potential extortionists, whether the conversation was incriminating or not.

the conversation was incriminating or not.

The use of wirelapping is immoral and
illegal since it represents an improper entry
into your home or business without a warrant from the police department.

THE OBSENVER hopes that the United
States Congress will see the inherent flaws
in the legal use of wirelapping and the need

for outlawing such activities

-LEONARD POGER

Another

Westland's City Council has joined the ranks of many municipalities and school districts which have blithely passed the reins of government to unions with which they bargain. Westland has, however, gone further than most in the game of government give-away.

way.

In most cases, where contracts are sign-

In most cases, where contracts are signed, forcing employees to join the union in
order to work for the government, workers
are permitted two to three months on the
job before they must join.
But not Westland!
Each new employe must fork over his
initiation fee, 10 days after he starts the
job—or he is put off the payroll and the
job.

City Falls And then the union—not trusting the wisdom of the city council—demanded that unsatisfied grievances be settled by binding arbitration.

ing arbitration.

And the Council — not trusting in its own wisdom—agreed.

By turning over the responsibility of making decisions—given to them by the citizens, councilmen, have thereby deprived the electorate of a privilege it has fought for since the Revolution.

All citizens who believe their elected officials should perform the duties for which they were chosen, should protest loud and vigorously.

This is one protest.

This is one protest.

Bus Flasher Means Stop

Last month a six-year-old girl was killed on Van Born Road in Van Buren Township. This little girl's death was the result of an automobile passing a stopped school bus with its red flashers activated. Increasing concern has been expressed by school bus drivers this year from all sections of Wayne County because drivers are ignoring the flashing red signals on school buses.

Many citizens have reported cars pull-

Many citizens have reported cars pull-ing out of a regular lane of travel to pro-ceed around vehicles which were stopped for buses loading or unloading.

or ouses joading or unloading.
Generally speaking, Michigan law requires wehicles must stop for school buses loading or discharging passengers. Exception to this law exists in Detroit and Dearborn, where ordinances have not been passed to observe the state code.

Despite the difficulty in prosecuting drivers in violation of the code, school bus

fransportation supervisors are saked to submit to the police all information leading to the arrest of drivers who fall to recognize a school but red fleshers. School but school but red fleshers are being told to keep pad and pencil handy to jot down license numbers of violators. . . . get a description of the car . . positively identify the driver of the vehicles in violation. When but schress suppryleshed to the vehicles in violation. When but schress school transportation supervisors should seek a warrant for the arrest of the drivers of the vehicles in question. No driver wants to kill a youngster. No driver wants to kill a youngster. No driver wants to kill a youngster. No driver wants the shocking experience of hitting a youngster on a highway.

Stop your car when you see a school but with flashers activated when loading or discharging the students. This safety rule, it observed teneciously will protect and keep alive our most prized possession—the school children of Wayne County.

OBSERVATION POINT

By Philip H. Power

ENATOR Philip A. Hart with spectacular success and the past weekend, and on slaturday a group of us newspaper types? went over to Bloomfield Hills to see him at a big cocktail party.

The Senator was scheduled to be the guest of honor later but evening at the annual Phil Hart Dinner put on by the Oakland County Demoher of Selation (Selation Phil Hart Counter put on by the Oakland County Demoher of Selation (Selation Phil Hart Counter put on by the Oakland County Demoher of Selation (Selation Phil Hart Counter put on by the Oakland County Demoher of Selation (Selation Phil Hart Counter put on by the Oakland County Demoher of Selation (Selation Phil Hart Counter put on by the Oakland County Demoher of Selation (Selation Phil Hart Counter put on the past a lot of link too. Although the gets a lot of link too. Although the lections.

SENATOR Philip A. Hat:

was in this area over
the past weekend, and on
Saturday group of unewspaper types went over
to Bloomfield Hills see him
at a big cocktail party.

The Senator was scheduled
to be the guest of honor later
that evening at the annual
Phil Hart Dinner put on by
the Oakland County Democrats. He had a pretty bad
cold and, once again, I could
not help reflecting on the terrible diggravations which polticians put up with in order
to meet their commitments.

Driving back home later

to meet their commitments. Driving back home later that evening. I heard on the radio a report on Governor Honney's speech on Viet Namt. That, too, got me to thinking.

Not about the Governor's position on Viet Nam, which was surprising only in its similiarity to President Johnson's. But rather about one of those political situations which everyone connected with politics recognizes... and then refuses to talk about.

with politics recognizes ... and then refuses to talk about.

It is just this. The odds are, come election time in 1970, we will find Senator Hart engaged in a ding-dong campaign to hold his iesat against the challenge of the same Governor Romey who right now is so actively pursuing the Republican Presidential nomination.

In this lies one of the real

activety pursuing the publican Precidential nomination.

In this is one of the real ironies of politics: That a man (Ronney) riding on the crest of the wave of popularity, with a whole lot going for him in his home state, could take on a man (Hart) who has served down in Washington

with spectacular success and unusual responsibility, with a real chance of knocking him off in an election.

"Real chance," my foot.

Most of the political pros, if asked, would say that Senator Hart would have a real tough row to hoe against Romney.

How so?

Well, on the one side we have Philip A. Hart, won whomped Elly Peterson by over a million votes in one of 1964's more absurdly mismatched clections. He is a Senator now in his second the fine art of winning elections, while at the same timer of service, building a record and reputation matched by very few. Hart is a politician who has mastered the fine art of winning elections, while at the same timer maining thoughtful, resonable, bi-partisan and responsible.

Senator Hart guts a lot of it is in Washington. where the rub lies for more here in Machigan's Senator of the Hort pages almost a long to the service of the fire art of winning elections, particularly when a political with the fire art of winning elections, particularly when has to sport more here in Washington worrying about of the fire art of winning elections, the is a spending of the fire art of winning elections. He is a spending the fire art of the fire art of winning elections are the fire art of winning elections. He is a spending the fire art of the fire art of winning elections are the fire art of winning elections. He is a spending the fire art of the fire art

Romney tries for the Republican Presidential nomination in 1968.

If he gets it, he runs against President Johnson. If he wins, all bets are off.

On the other side we have George Romney, who licked Zolton Ferency by a pretty hefty margin in 1966. He is a Governor in his third term.

On the other side we have George Romney, who licked Zolton Ferency by a pretty hefty margin in 1966. He is back strong for the Presidency in 1972 than picking building a record and reputation with Michigan voters. Valionally, Romney is the Michtest thing the Republicans, when the sing the main reason for the long faces you see on so many Democrats when

OBSERVING the Scene . By MYRA CHANDLER

It may not be happening universally in Observerland — but I wish it would be — that our "tuned-out" genera-tion, our kids, are organizing.

In Livonia the youth planned a conference. It was sponsored by the Livonia Youth Commission — but it was planned by the Livonia Youth Commission — but it was planned by the students themselves and it was attended by the students. Only adults attending were those invited to be resource people. The kids called their conference "What's Bugging You?"

have been getting their message but certain facts are beginning to come through to us.

In fact, business is leading the way. All media of business seems to have come awake at once. The teen-age market is where the money is—J. L. Hudson is putting out a special magazine. Others are following their lead. Big department stores are having charm courses and teen panels

The youth are being recognized as a buying power.

They know this. They know too it is important for m to have a healthy mature respect for the property

Of others.

But one thing was made clear to me. These kids are darn tired of being discriminated against because they are tecn-agers. Having the majority punished for the small percentage of the bad apples destroys the privileges of all.

At the same time they recognize there are those of them who act with complete immaturity. They want to solve some of these problems themselves.

As one young lady said in summing up her particular work session, "If it isn't us who will lead the way — who

She was talking about teen age dress.

Other areas covered was City Administration, Police and Law Enforcement, Business Community and News Media — here is where I got it, but good.

They made some good, strong points and they were tight. We in the fourth estate get involved in tax problems, adult social events, and the bad things that happen — and very rarely tune in to what the kids are really saying.

' By the same token, when challenged, they seemed willing to assume responsibility for disseminating ideas and events to the news media if allowed to do so. It should be the beginning of a new era for The Observer and the teens of the community. I hope so.

Personal Health Habits, Relations with Parents, What Youth Expects of Other Young People, Manners covered another Discussion Group.

another Discussion Group.

A third dealth with Drop-Outs, Inter-School Relations and School Affairs in general.

A fourth concerned themselves with Established Youth Activities outside the school — LYI, YMCA and Jr. Achievement and how they can be improved.

The morning and afternoon was informative, well planned, and well worth the time IF there is follow-through by the youth themsolves.

As I say the talk was intelligent — I can't wait to see if anything happens.

One basic plan was to form a Federation of Youth that would concern themselves with important matters, not trivia. Matters such as the discrimination at drive in restrivia. Matters such as the discrimination at driven restaurants and theatres — and what to do about it. Plus what to do about the kids that cause the discrimination in the first place. This Federation of responsible teens would like to have a voice in their government, their school, and plan their own activities.

One thing for sure — if they do it — The Observer

will report it

SENSE and NONSENSE

Do You, Suffer From Vitamin E Deficiency?

From a leading magazine — Dr. Shute of London, Ontario, expert in the use of Vitamin E, says:

"Virtually everyone in the western industrialized countries is deficient in Vitamin E. This is because the foods we got have the vitamins processed right out of them until there is nothing left but a stamach filling nutritionless blob!"

Nine Parker
In a study conducted by experts and supported by U.S.
Public Health Service Grent No. 30-05. It is shown that
many men and women are actually suffering Vitamin E
deficiency and that such deficiency may have serious deleterious effects on the enzyme processes of the body that
affect the total metabolism.
Visit Zerbo's Health Food Store and taste many delicious unprocessed foods that are rich in Vitamin E.
