Name Schenden Production Boss At Fisher Body

The appointment of J. K. Schenden to the position of production manager at the Fisher Body plant in Livonia was announced Monday by Glenn W. Wiegand, general manufacturing manager for Fisher Body.

Schenden succeeds F. H. Green who was recently named manager of the Livonia plant.

A native of Ionia, Mich., Schenden joined General Motors in 1942 as the AC Spark Plug plant in Flint. Following a military leave of absence in 1945, he rejoined General Motors at the former Fisher Body plant in Ionia as a payroll auditor.

A series of promotions there, led to his transfer to Lansing in 1948, as a labor standards analyst. After assignments at Fisher plants in Grand Rapids, Flint and Fisher General Offices, he was named staff assistant at Livonia in May, 1954.

Schenden became plant superintendent of the Livonia operations in 1963, the position from which he is being promoted.
