

LETTER FROM THE STATE CAPITOL

DOPE SELLING IN MICHIGAN DIS-
CUSSED BY STATE OFFI-
CIALS.

EXTRA SESSION MAY BE ADVIS-
ABLE.

If Contention of Detroit Prosecutor Is
Correct Law Will Be Needed
to Prevent Indiscriminate
Traffic in Drugs.

[By Gurd M. Hayes.]

Governor Ferris—"My law relating
to the sale of drugs in Michigan
is not intended to be a legal
barrier to the sale of drugs."
Attorney General Grant Follows—
"If special session is called an amend-
ment to the law relative to the sale
of 'dope' should be called to attention
of the legislature."

Dairy and Food Commissioner
James Helme—"The cocaine law
should be amended to compel whole-
saler to report monthly by their sales
of this drug to the state and food de-
partment."

State Bacteriologist J. L. Holm—
"The time has come when it is neces-
sary to enact legislation restricting
the rights of the medical profession in the
sale of drugs to the state and food de-
partment."

Dr. Bret Nottingham of the state
medical board—"Licenses of physi-
cians or pharmacists should be revo-
cated upon conviction for selling or pre-
scribing 'dope' illegally."

Lansing, Mich.—Arrested by the
experts of the illegal sale of "dope"
in Detroit, Lansing and other cities
of Michigan, state officials are under
great stress to enact legislation to
prevent this practice, and if a special
session of the legislature is called
Governor Ferris will recommend a radical
change in the present laws governing
the sale of drugs.

It is the unanimous opinion of ev-
ery state official who has studied the
proposition that the present laws are
not stringent enough to curb viola-
tions by unscrupulous physicians and
druggists, and it is pointed out that
there are many other defects which
are in need of immediate remedy. To
such extent has the traffic in this
poisonous heroin, cocaine and other
drugs become so rampant that state
officials are horrified at the recent ex-
posures. They do not know how to
curb the traffic, and they are not ad-
vised to the use of the law.

Federal laws have not been enacted
which will prevent "cow birds" out-
side the state from conducting a pro-
fitable business by peddling dope in
Michigan, but they do hope to curb
the sale in this state.

"The recent disclosures in Detroit
and elsewhere in Michigan indicate
that the youth of the state, the man-
hood of Michigan, are being under-
mined through the sale of these
drugs as morphine, heroin, etc.,"
said Governor Ferris.

"This phase of law violation should
not be tolerated under any circum-
stances. There is absolutely no ex-
cuse for any man who claims to have
the slightest regard for humanity to
join in inflicting upon humanity drugs
which are more deadly than the most
poisonous snake. The economic harm
that is inflicted upon the state is a
trifling factor as compared to the
destruction of character. A secret
and cowardly method of killing
the life and health of the state and im-
peril the safety of the people should
receive more serious condemnation
than the open methods of outlaw.

"Every law abiding citizen who
who has an appreciation of the
value of human life should join in a
campaign to exterminate and make
this form of drug violation an impos-
sibility in the great state of Michigan.
I deem it a privilege and a duty to do
everything in my power to encourage
law enforcement in relation to this
all important matter. Along this line,
the state of Michigan is in a most
splendid work of duty and food
commissioner James Helme. It is
hoped that our civil authorities will
not have a stone thrown to do away
absolutely with this cowardly method
of assassination."

Dairy and Food Commissioner
Helme is not pleased at the methods
followed by Prosecuting Attorney
Shoemaker in pushing the case of
Almeria Eddie Barnett, of Detroit.
"I am very sorry that the prosecution
has taken the stand it has in the Bar-
nett case," said Helme.

"I dug up the facts that a large
amount of morphine and heroin had
been sold without prescription in the
Barnett Drug Store in Detroit. Section
9 of the pharmacy law provides that
no registered pharmacist shall sell
or furnish morphine or any of its
derivatives without a physician's pre-
scription. Barnett is not a registered
pharmacist and the prosecutor took
the ground that Barnett could not be
prosecuted for the sale of these
drugs made in his drug store.

however, is the law. While section 9
prohibits registered pharmacists from
selling morphine only on prescription,
section 32 reads 'any person violat-
ing any of the provisions of this act
shall be deemed guilty of a misdemeanor
and on conviction shall be pun-
ished by a fine, etc.' I believe any-
way that Barnett should have been
prosecuted under sections 9 and 32.

"Instead of this Barnett is charged, as
I understand it, with selling drugs
before without being a registered
pharmacist. To my mind he cannot
be convicted, as charged in the face
of the plain provision of the provision
in section 32 which reads 'any person
violating this section and the preceding
section shall not be construed as pre-
cluding any person from owning a drug
store or pharmacy. If all the pharmacist
in the same drug store shall be
under the personal supervision and
direction of a registered pharmacist."

"As Barnett always employed a reg-
istered pharmacist, his conviction in
the face of this provision is a
ridiculous thing. At any event a
change should be brought at once
to clear up this doubt and if it decided
by the courts that the 'unregistered
sale of morphine and heroin by every
person who sells drugs is legal in
Michigan, a special session of the
legislature cannot be called too soon."

"The law against the sale of cocaine
in Michigan is working well. Under
the law wholesalers must keep records
of the sale of this drug to retailers and
recipients are subject to the inspection of
our department. Under this law the
illegal sale of cocaine with respect to
wholesalers has practically been elimi-
nated. The cocaine law and the co-
caine law have taken to heroin.

Cocaine laws should be amended
to compel wholesalers to report
monthly their sales of this drug to the
state and food commissioner.

"With such a record before me I
could easily keep posted on all sales
made to every druggist or other per-
son in Michigan. If state officials are
under great stress to enact legisla-
tion to prevent this practice, and if a
special session of the legislature is called
Governor Ferris will recommend a radical
change in the present laws governing
the sale of drugs."

SOLDIERS DIE IN RAIL ROAD WRECK

ENGINE TENDER JUMPS TRACK
AND THREE COACHES PLUNGE
TWENTY-FIVE FEET.

MEMBERS OF COMPANIES 28 AND
170 COAST ARTILLERY KILLED.

Terrible Loss of Life When Train On
Which United States Regulars
Travel to State Fair Is
Derailed.

Meridian, Miss.—Twenty soldiers of
Companies 28 and 170, United States
coast artillery, were killed and about
one hundred others injured Sun-
day afternoon when special troop train on
the Mobile & Ohio railroad near State Line,
through Division Six, State Line,
Mobile & Ohio, in a report sent to
headquarters of the road at Mobile,
gives this number as the extent of
the casualties.

The wreck was caused by the en-
gine tender jumping the track when
about 200 feet from a trestle. The
engine was not derailed and passed
over the trestle. The tender broke
loose from the engine, however, and
with the baggage car and three
coaches, plunged 25 feet to the ground.

Some of the dead are: Joseph
Tebben, Ernest Dequette, Clyde Teel,
H. B. Borden, C. C. Burleson, Joseph
Provence, W. H. Brin, Gooden, Rem-
son, Gruckle Acres, Capt. Johnson,
of Eighth Regiment band.

One hundred and seventy-nine sol-
diers were on the special train. They
were from Fort Morgan and Fort
Farragut, and were on their way to
Meridian to participate in the Missis-
sippi-Alabama joint state fair.

The men had gone to Mobile early
Sunday and at noon their ill-fated
special left Mobile. As meager news
of the wreck filtered into Meridian a
special relief train, bearing physicians
and nurses left for the scene. Other
trains left from Mobile and Whistler,
Ala.

The coaches were well filled and
when the three cars plunged through
the trestle the men had little chance
to escape. The debris was piled
up, making it difficult to remove
dead bodies or rescue injured.

Senate Passes Clapp Bill.

Washington—The first direct results
of the congressional investigation of
campaign expenditures came when the
senate passed Senator Clapp's bill
prohibiting the sending of campaign
funds from one state to another.
The bill prohibits the carrying or
sending of funds from one state to
another, to be used in the election of
president, vice president, presidential
electors, or congressmen. The sen-
ate passed the bill without debate. In
previous discussions it was made
clear that its purpose was to prevent
the financing of campaigns in a secret
manner by organization or individuals
who did not come directly under the
campaign publicity laws.

Last Zulu King Is Dead.

Cape Town—Dinuzulu, the last of
the warrior kings of the former Zulu
nation in South Africa, is dead.

He was a son of Cetshwayo, the king
who led the Zulu nation against the
British troops in the war of 1879.
Cetshwayo was eventually defeated and
he had inflicted a crushing blow
on the British army at the battle of
Isandlwana, when practically the en-
tire Twenty-fourth infantry regiment
was massacred.

Dinuzulu led two or three rebellions
against the British. He was once cap-
tured and exiled to the island of St.
Helena.

Prospects Bright for Currency Bill.

Washington—President Wilson has
further cleared the path for currency
reform in the senate through confer-
ences opened with the republicans on
the currency bill. As a result of a conference
with Senator Nelson, the president
has received assurances that the re-
publican members are not holding up
legislation, nor trying to impose ac-
tion on the currency bill in the senate.
It is believed that it will not be made
a party measure and will be supported
by republicans and democrats alike.

Mrs. Little J. Dauchy, whose hus-
band, Edward Dauchy, was killed in
the Kellogg Food Co. factory, at
the Creek, settled in district court with
the company for \$400.

A campaign has been started in
Jackson to compel the city council to
submit a charter revision proposition
to the voters.

The state fire marshal is sued again
this time an Edmonia theatre owner
seeks an injunction to restrain the
marshal from enforcing that part of
the state law which says no mov-
ing picture show shall be operated on
the second floor of a building. The
owner of the theatre, who says the de-
partment is facing a result of new le-
gislation passed by the 1913 legis-
lature.

prohibits the sale of liquor to a Uni-
versity student. Judge Kline in his in-
structions to the jury advised them

had to decide was whether or not he
had sold.
