

Just Chattin' Mickey Cochrane's physchology recalled in Tigers fight for lead

- By W. W. EDGAR -

tion that earned the affectionate name, "The Battalion of Boeth."

It was difficult to get a ball through this inner cordon and the outfield of Pete Fox, Jo-Jo White, "Gee" Walker and Gostin, became the talk of the league. Along with such pitchers as Little Tommy Bridges, Schoolop Rowe, "General" Alvin Crowder and Eldon Auker, the submarine southone who lived through those hectic days ever will forget it. It was one of the greatest portrayals of psychologic baseball ever has known.

Mickey proved to them "it was great to be with a winner."

Now history may be well on the way of repeating itself.

When Mayo Smith took over the leadership of the Tigers this spring his first public statement was. "With a few little changes this club could go all the wax."

He wasn't as first public statement was. "With a kein history in his remarks as Cochrane had been back in 1934—but he was just as sincere.

So, who knows—?

office says this means that the department wants first class retreatment and pays for the first class rates of five cents are not compared to the postage scale the cost of mailing. According to the postage scale the cost of mailing this particular booklet was 10 cents. That's not really tvery much, but compute how many newspapers there are in the country and the dimes begin to mount. We don't really have a complaint about the Labor department doing the mailing. Very often information about the labor force and about job opportunities is included in the package.

This is the Department's function.

This week, however, a release was included that really doesn't have any bearing on the labor department.

The release tells about a speech of Vice President Humphrey before the Seventh Annual Pillars of American Program in San Diego. It's entitled "Freedom Belongs to All Mankind".

What connection does this have with the function of the U.S. Dapartment of Labor?
