Edison lowers the cost of electric

Now, when you buy a new electric clothes dryer, Edison pays for installation, exclusive of venting Your new electric range will be installed free, too, as long as these appliances are installed on Edison lines in homes.up to and including four-family residences.

New electric water heaters of approved capacity are also installed free. And you'll get one of the lowest electric water heating rates ever offered. If your home's heated by electricity, you get added savings. Your rate's been lewered again. This time, 10% over the previous rate; altogether, a 30.5% reduction in eight years.

Like to live the good life? Do it with electricity. Costs less than ever **EDISON**
