If your want ad is in this paper, people are reading it today!

Somewhere a man will be giving his front lawn its Summer conditioning treatment when the paper boy comes by. He will already have realized that the old muscles softened up during the winter, and his copy of the Observer will give him a welcomed opportunity to take a breather before finishing his work.

Sitting down on the front steps, he lights his pipe and turns to the Want Ad pages of the paper. Why the Want Ads first? Because he has in mind that there is a certain item he wants to buy, and he knows that he can find it offered in the Want Ads. It may be a better power mower, a car for his son, or outdoor furniture for his patio.

He is just one of thousands who will see your ad when it appears in the Observer Want Ad pages. That is why you can count on quick results. People who read Want Ads are looking for something.
