Nothing Beyond the Milky Way but Empty Space

W ASHINGTON.—The boundaries of the universe—who have been discovered, according to a report received at the National Observatory from the boundaries of the National Observatory from the Common the National Observatory from the National Observatory from the National Observatory from the Linion Observatory at Johannesburs.—The Universe of South Africa. The announcement is regarded with interest by astronomen the six all over the world.

The universe, Prof. Innex ussers, it is contained within the space girdled by the Milky Way, and he figures of the straystems in necessary to the world the most office of the contained within the space girdled by the most office of the contained within the space girdled by the Milky Way, and he figures of the straystems in forces of formatic the most office of the contained within the cart is a member, is commonly supposed by the straystems in forces of formatic the most office of the contained within the cart is a member, is commonly supposed by astronomers to be close to the centre of the arean embraced within the will be supposed by the straystems in forces of formatic many of the straystems in forces of the straystems in forces of formatic many of the straystems in forces of the straystems in forces of formatic many of the str

The so-called "hellum stars," the Johannesburg astronomer avers, are the most distant of all stars from the carti. The hellum stars are peculiar to the Milky Way.

Is there anything outside the universe." On this point Prof. Innes does not venture a positive opinion, but he says that the most powerful scopes penetral far lyond the boundaries of the universeving nothing, in particular, he says, there is absolutely no sign of other universe of similarly constituted systems.

Popcorn Can Be Profitably Raised on the Farm

Timery dollars worth of popped corn in the form of Scent packages for the market represents an outlay of only about \$1 or \$1.60 for raw material, according to a farmers' builetin (No. 553) just issued by the department of agriculture, entitled "Popcom for the Home." Sufficient popcom to make \$30 worth of Scent packages can be grown on a piece of land of felt long and 20 feet wided. Investigation of the superior to the superior

Labor Department Clerks Have to Do Real Work

C LERKS of the department of labor are nursing bilaters and calloused spots on hands and knees, and the new quarters of the latest executive department of the government smells of arnica and healing ointments. Noving day for the department dime around, and, as the appropriation for moving covered only the transiter of the furniture from the old quarters to the new, the clerks were pressed into service to rearrange the desis and filing cabinets and other paraphermalia.

ERUPTION ON CHILD'S BODY

R. F. D. No. 2. Jackson, Mo.—"Our daughter who is ten months old was suffering from an eruption all over the body. In the beginning they were small red spots and afterwards turned to bloody sores. We tried all sorts of ointments but they did not procured any relief for our child. She cried almost day and sight and we, enacrely could touch her, because she was covered with sores from head to foot. "We had heard about the Cutierra Soap and Ointment, and made a trial with them, and after using the remedies, that is to say, the Soap and the Ointment, only a few days passed and our child could sleep well of the could stop well of the could be co
