

Oakland GOP Chief Hits Huber

Oakland County Republican Chairman Joseph R. Farnham has responded to statements made by Sen. Robert Huber (R-Trop) at the first meeting of the conservative GOP splinter group the senator formed.

In answering Huber's statement that "the split in the Republican Party in Oakland County is not a Huber-Farnham quarrel, as many have tried to present it," Farnham said he was "delighted that the senator is coming around to our point of view."

"For the past 18 months, Huber has told the press and public that I was the only obstacle to party unity," Farnham said. "We have maintained consistently that the split had nothing to do with me and that Huber would fight any county chairman who did not agree with him, as he had in the past. If the senator has now come around to our point of view, that shows some progress," Farnham said.

OBITUARIES

JOHN M. CASEY

John Malachi Casey, 68, of Detroit, brother of Milton S. Casey, of Farmington, died Sept. 10 in Grace Hospital. Services were held Sept. 13 in the Bailey-Newhouse Funeral Home, Sault Ste. Marie, with arrangements handled by Heene-Sundquist Funeral Home. Burial was in Donaldson Cemetery.

Gardening Fall Work Is Leisurely

By BETTY FRANKEL
Special Writer

It's time for the gardener to bring in any house plants that spent the summer in the garden or on a porch in patio. Before bringing them in, clean off the pots and inspect the plants for insects and diseases.

There's no point in providing a warm winter home for such pests.

Cuttings can be made of geraniums, coleus, lantanas, begonias and other tender perennial plants. Many will bloom indoors in a sunny window by mid-winter, and a supply can be obtained for next year's garden. It is less successful to dig up the established plants.

They suffer severe shock at the transplanting and have to be cut back sharply.

IT IS FUN, though, to dig up a few small annuals to put for bloom indoors. They will last for a month or two, probably, before they get so scraggly they have to be discarded.

Try potting dwarf marigolds, lobelia, annual phlox, and even sweet alyssum.

Surviving are her husband, Bernard D.; her mother, Mrs. Rosa Lutz of Solingen, two daughters, Mrs. James (Norma) Patterson of Miami, Fla., and Mrs. Ned N. (Annaliese) Kuehn of Birmingham; four brothers, John and Henry Lutz of Farmington Township, including Lutz of Livonia, and Herbert Lutz of Redford Township; two sisters, Mrs. Hugo Petoske of Fremont, O., and Mrs. Ellen Foster, of Farmington; and six grandchildren.

Frost can be expected in this area around the middle of September. This is the average date, although it can vary considerably. Often a frost or two around mid-September will be followed by a month of frost-free weather.

The gardener can provide some protection for a few favorite annuals or treasured tomato plants and have blooms and vegetables late in the season.

Cardboard cartons, large paper bags, or old bed-sheets can be used to make "tents" over individual plants or over a small bed. Keep a check on the weather reports, and when frost is predicted cover the plants by early evening and remove the covers the following morning.

There is much more likelihood of frost on clear starry nights. Clouds tend to blanket the earth so the warmth of the day is not dissipated.

Fall gardening is a more leisurely procedure than is spring gardening. There is more time, less to do, and the soil is in better working condition and often the weather is more cooperative. Schedule your work so it is spread out over the entire season.
