

# YMCA Slates Judo Classes

Grunts and groans and phrases will emit from Farmington Junior High School this fall when the Farmington YMCA begins its classes in Judo.

The classes will begin Sept. 28 and will be held every Thursday evening for the following eight weeks.

The instructors will be Mr. and Mrs. Tom Tripp.

Tripp holds a black belt in Judo and is registered with the U.S. Federation of Judo and the Kodokan Federation in Japan which is the governing body of Judo throughout the world.

Mrs. Tripp is a brown belt in Judo and is also registered with the U.S. Federation.

There will be two courses held each evening.

The first, beginning Judo, for boys and girls from 10 to 14 years old will be from 7 until 8 p.m.

A complete Judo course will be from 8 p.m. to 9:30. This class is for anyone 15 years old or over and persons completing it will receive a certificate which will allow them to register for any course in the Detroit area.

Other equally interesting courses are scheduled at the 'Y' this fall.

The fall series of Sex Education will be held in October. This series will be presented at Farmington Junior High School.

The program will be given for students at O. E. Dunckel and East Junior High in the winter and spring respectively.

The YMCA sex education program is in its fifth year and the previous response to the program has indicated tremendous interest from the community.

Topics to be covered are "Physical Growth," "Mating Socially and Spiritually," and "Human Reproduction."

Junior high students must be accompanied by at least one adult.

Classes in creative living are also in the offing this September.

Mrs. Irene MacKinnon of Farmington will again conduct classes in beginners sewing, creative sewing, intermediate sewing, holiday decorations, and a new class in boutique crafts.

All these classes will begin the week of Sept. 26 and for further information concerning them contact the 'Y' by phoning 474-3232.

NEW REGISTRANTS at the Orchard Napier of Grayfield Drive, Farmington, Ridge Campus of Oakland Community College and Jacque Allen of Birmingham.

## OCC Opens Doors On New Concept

Oakland Community College has a method of instruction that is different from most other colleges' idea of how to teach students.

A member of the administrative staff explained Oakland's method and told how it differed from other schools. He still has a certain amount of planned studying but the student also has more freedom to work on his own.

FOR EXAMPLE, he continued, a student who was in a tightly regimented schedule in high school seems to do very well at Oakland. He still has a certain amount of planned studying but the student also has more freedom to work on his own.

The old idea of listen to a lecture and then read the book and that's all is out at Oakland, the informant explained.

"We believe that we have a plan designed to help more students than it will hinder," the administrator concluded.

## Completes Training

Seaman Apprentice Ronald Lespi, USN, son of Mr. and Mrs. Arne Lespie, of 21111 Westminster, Farmington, has completed nine weeks of basic training at the Recruit Training Center, Great Lakes, Ill.

The local Bluejacket, a graduate of Clarencville High School, will spend a 16-day leave with his family before reporting to the U.S.S. Oriakany CV-34, now on station off the coast of Vietnam.

## Pfe. Begins Training

Michael A. Welling, son of Mr. and Mrs. Leo J. Welling, 33625 Rohmswood, Farmington, began his basic training Aug. 22 at Fort Knox, Ky.

## Local Members Attend Meeting On Retarded

Five members from Redford Township attended the 16th annual meeting of the Michigan Association for Retarded Children in Lansing last weekend.

The local delegation included Al Sova, Richard Snyder, Robert Clogg, Mrs. Isabel Billings and Mrs. Margaret Arnold.

Dr. George D. Maniaci, of Gladstone, was elected president for the coming year and told the members they should "fit the time as well as money" to help guarantee expansion and quality of needed services for the retarded of Michigan.

"While mental retardation has now entered the inner circle of respectable handicaps," the upper peninsula physician said, "it is not respectable to allow a child's abilities to stagnate for lack of educational or training programs which would make him a useful and contributing member of his community."

The state association unanimously adopted a resolution calling upon Governor Romney, the state legislature and all departments of government to continue progressive action for the retarded which has placed Michigan in the vanguard among states working in this area.

Basis for the action, Dr. Maniaci said is the standstill in programs for the retarded resulting from lack of appropriate of respectable handicaps, the upper peninsula needed expansion.

## Casino Grande Ball Scheduled

The Detroit Armenian Women's Club will present a "Casino Grande Ball" on Oct. 7, in the Crystal Ballroom of the Whittier Hotel.

Proceeds will be used to provide scholarships to students of Armenian descent living in Michigan. The Clark Williams orchestra will provide music for the event, with special entertainment by vocalist Pearl May, magician Bob Downey and comedian Mesak Zakarian.

Mrs. Harry Siminoff of Kinloch Avenue, Redford Township, is president of the group that was formed in 1930. Mrs. James Baharozian, of Mason Court, Livonia, is a member.

Tickets may be reserved by calling Armenian Men's Club, LI 5-6788.

## Plant Displays New "Crasher" For Old Cars

Since Detroit is known as the automobile capital of the world, it seems natural the motor city should have the first high volume auto fragmentizing plant.

The unique plant—which can consume 250,000 junked cars annually—was shown recently to Ford Motor Company executives, including Charles H. Patterson, executive vice president.

The new \$3,500,000 fragmentizing plant is owned and operated by Luria Brothers & Company, Inc., of Cleveland, O., and is located on a 30-acre site along Pennsylvania Road, east of Telegraph Road, in suburban Taylor Township.

## Divider Erected To Hold Glass

Space is where you find it. A counter divider between kitchen and family dining area offers superb storage space for glassware when shallow cupboard are built on the dining side, extending from the floor to the countertop. Only a six-inch depth is needed for tumblers, juice glasses, sherbets, small fruit dishes, cups and saucers.

Sides, top and bottom of the new cupboard are made of 1/2-inch boards nailed directly to back and edges of the existing unit. Fir, hzmlock or pine may be used. Interior shelving of the same wood is most easily installed on metal strip fasteners. For the doors, use inexpensive, good-looking louvered cupboard doors.

Finish the top and sides of the new cabinet to match existing woodwork, but finish the doors to contrast with paint if cabinet work is natural finished, or the reverse.

## STUDENTS MEET, for whatever subject they are studying, in a general assembly session, which might hold 200 people.

Then the larger class is divided into small assembly sessions with 12 students and an instructor.

The small assembly session is designed to help the student review what was covered in the general lecture and also gives him a chance to ask questions that had to be put off while in the bigger group.

THE STUDENT is then free to use a study lab which has recording talking about his particular area of learning.

The recordings are designed so that if the student has missed any of the finer points of his subject, he can have the tapes replayed as often as he needs until he grasps that particular fact.

The entire "three phase learning" concept that the College is using was put together, so to speak, from teaching methods of other schools.

Oakland, the staff member said, took what it considered the most successful aspects of the different methods and combined them into a new concept.

He said that naturally some people wouldn't excel with this system, for one reason or another, but that a lot

what's the second most important name on your mortgage?

your bank.

There's a lot more to a mortgage than the amount of money you borrow. Where the money comes from is just as important. And so are the things written into your mortgage.

If you apply for a home mortgage at NBD, for example, you'll find we have the people and facilities to give you personal attention. And because we're a full-service bank, we can keep on helping you with our entire range of financial services long after you move in.

Ninety-five offices make us the most convenient place in town to apply for a mortgage. There is no application fee.

Closing takes only thirty to forty-five minutes and are often made at the same office. This saves you a special trip downtown. And closing costs are usually less than a hundred dollars, excluding insurance.

When we write your mortgage, we spell out exactly what rate you'll be paying and what you're paying for. And we'll write in pre-payment privileges that can save you hundreds of dollars if you sell your home.

If you're considering a mortgage loan right now, be sure to consider a very important thing: the name of your bank.
