# The Fact Remains

No amount of misrepresentation by the peddlers of alum baking powders, no juggling with chemicals, or pretended analysis, or cooked-up certificates, or falsehoods of any kind, can change the fact that

Royal Baking Powder

has been found by the official examinations to be of the highest leavening efficiency, free from alum, and of absolute purity and wholesomeness.

Royal Baking Powder is indispensable for making finest and most economical food.

DOWRY OF MARGINAL SHILLINGS.

A friend of mine started the game A friend of mine started the game of margins some years ago with the guineas. As an artist he was always paid with the guineas. To them was born a daughter, and it occurred to him to put aside the odd ahillings to a savings bank account in the name of their daughter. The artist says that he never missed the martised hillings and the daughter. says that he never missed the mar-ginal shillings; and the daughter, now twelve years old, has a pleasant little dowry accumulating against the time when she gains a the same of the same or loses a father.—London Chron-

# Sampling Mother's Doughnuts

HUNGRY kids are sampling them today just as they did in your doughnut days.

Our artist has taken the old familiar story and brought it up to date. He has given Mother a modern up to date Acetylene cooking range.

It may surprise you to learn that such ranges are actually being used by the women folks in over two hundred thousand country homes.

As you will note from the picture, they are duplicates of city gas range; used throughout the world. They furnish heat on tap-and have the high ovens with glass doors and all other modern features.

If you feel that your folks would appreciate the convenience of gas for lighting and cooking—if you feel that they have battled long enough with kindling, ell, coal, ashes and soot, you should without delay look into my home made Acetylene proposition.

facturers of the famous Pilot Acetylene Light Plants.
Pilot plants are different from any of the other hundreds of American Acetylene machines. They work on a different principle. They are not storage matically active the stiffer at a time. Buttle at a time, they make the rivove or the lights are in use. At other times the plant stands idle.

PILOT LIGHTING PLANTS HOME MADE ACETYLENE The LIGHTING P COOKING

Pilot lighting plents are built upon honor to last a lifetime. They are permanent features of the homes in which they are installed.

In fifteen years only two accidents have been charged to the mistic and abuse of Pilor plants. While during the same period over one hundred thousand fires and ac-cidents large been charged to other illuminants.

For these reasons you should not judge Acetylene until you have seen it made by 4 Plot plant. The Pilot is the one plant that is mechanically perfect. This is proven by the fact that there are over sixty thousand of them in actual the today.

I can show you also how this home made Acetylene is used to produce the most brilliant and beautiful light known—how it is used in cooking ranges which do away with the work and bother of handling fuel and ashes.

If you wish I can send you nadoung ruce and maces.

If you wish I can send you also the Oxveld Actyler,
