# Highlights Of State Of The State Message

Following are highlights of Cov. George Romeny's 1988 circumstance of the State's message delivered last week to the State of the State's message delivered last week to the State of the S

million.

1 THIS ISSUE OF fair housing has been thoroughly threabed out in the special session, Now it is time to step up to this issue. Now it is time to step up to this issue. Now it is time to declare ourselves unequivocally for basic by lattice and human dignity in the housing field.

We must also give better financial support to the Civil Rights Commission, which has the tough and sensitive plo of carrying out Michigans public, policy against discrimination, The burgeoning produments of continue to dominate out the sensitive policy against discrimination. The burgeoning produments of continue to dominate out the sensitive policy against discrimination, the burgeoning produments of continue to dominate output the sensitive policy in the sensitive policy against discrimination of the sensitive policy against the s

b. FENANCIAL SUPORT - Loncal government's greatest curprocessing the second s

DEPARTMENT OF COM-MUNITY AFFAIRS - I propose creation of a Department of Community Affairs, to consoli-date programs and units non-acatized throughout stake gover-ernment. Such a department could assist local communities in planning, land use, housing, relocation and redevelopment problems, finance, federal lital-son and public personnel re-quirements.

HOUSING - The problem of I housing is one of the great chal-/ lenges facing this state. To meet this challenge:

Appear facing this state. To meet this bailenger and the state of the

TRANSPORTATION - Last year the Legislature created a Metropolitan Transportation Authority in Boutheastern Michigan, and subnovized olber area to take similar action. My bodget will include funds to be malched with federal funds for mass transit planning and engineering studies by such transportation agencies.

portation agencies.

Michigan's minimum wage should be increased to reflect higher living costs and bring it more closely in line with the

more closely in line win use federal law.
I recommend an expansion of our foreign trade activities, Last year a Michigan trade mission sold an estimated \$3 million worth of machine tools in Europe. We can multiply such success.

MICHIGAN'S REVENUE picture is also favorable, yet we must approach the new faced year with great care, midst test it meaning the faced year with great care, finds that the same picture of federal function and policy whime. Pederal grantime and have increased four-fold in the past decade. But cutthacks in program a unfulfilled budget promises, unrealistic administrative decisions, under extrictions - all of these have hampered planed progress at the state and local levels, we must not spend beyond our means, Fortunalely we can live within our revenues next year and move forward pra-

## The Key Proposals

Key points in the Romney legislative program for 1968:

1908: • Excise tax powers for cities. • A Department of Community Affairs to aid local

government.

• A \$435 million bond issue to meet costs of pol-

A 435 million bond issue to meet costs of pol-lution control and to develop new park lands.
 A fair housing faw.
 A fair housing faw.
 And if which control laws, restrictions on firearms and 'Molotov cocktals,' subpense powers for the attorney general.
 No new state taxes.
 A boost in the minimum wage.

dently and significantly.

dentity and significantly.

EDUCATION - I again urge that we increase support by 5s million for special educational programs for underprivileged, children. The needs of these children are particularly acute in our ceitral citing colleges, and additional support. My bodget will recommend the additional support, My bodget will recommend that design additional support. My bodget will recommend that for the increased earrollment expected this rall, as well as for faculty salary improvement necessary to attract and retain high-callier academic talent.

The Legislature established machinery for the creation of a Wayne Context come of Wayne Context come of Wayne Context come of Wayne Context come of the part in the Delrott metropolitan area. To accourage voter approval of such a district, my bodget will include \$200,000 in planning and development funds.

PUBLIC ENFLOYES

Events of the past two years have demonatized the deficiency of estating laws in dealing effectively with the organized efforts of public employes but would prohibit strikes. Andylaby would establish a more resistic and permanent state machinary local with this complex area of strikes. Andylaby would establish a more resisted and permanent state machinary local with this complex area on strike, i recommend that the first day after Labor Day to be legalized as the opening day of strikes, Andylaby would establish a more resisted and permanent state machinary local agreement to the contrary.

THE 1967 SOCIAL Security amendments give us more field with this complex area on strike, if recommend that the first day after Labor Day to be legalized as the opening day of strikes, Andylaby would establish a more resisted and the strikes and the st and collective Largaining by bublic employes but would provide more workable dispute settlement procedures ranging from your courts in instances of control of our courts in instance of control of our courts in instances of control of our courts in instance of control of our courts in instance of control of our courts in instance, and to when teachers are on strike, i recommend the first day after Labor Day be instanced in the absence of local agreement to the contray.

THE 1967 SOCIAL Security mendinents give a more first pointed with this Legislature should agreement to the contray.

THE 1967 SOCIAL Security mendinents give a more first pointed with this Legislature should move on after due deliberation to move our first due to the control of the c

-Third, legislation which would allow circuit judges to grant subposen power to prosecuting attorney or the attorney general.

water, Parks - The three major challenges facing Michigan in the protection and management of its abundant natural resources area are pollution control in our lakes and streams, the Bévelopment of adequate recreational facilities in and around our major urban centers, and the futberance of the recreation potential of the Great Lakes.

Because of the magnitude of

Thursday-

covernment for the construction of community recreational facilities such a strimmer goods and vest parks. The financing which I propose would include a bond issue of \$335 million to comba batwaier pollution and a bond issue of \$100 million for parks and recreation. Combined with federal and local funds, this would give Michigan a \$1,364 million program to meet these urgest problems.

GOV. ROMNEY

GOV. ROMNEY

these problems and because of the mounting cost of deferring action even for a short period of time, 1 am took year proposing general obligation bond issues of \$435 million to kep thannee the capital costs of these programs on a cash basis. South bond issues would provide hunds for:

--Cost sharing with federal and local units of government in the construction of poliution treatment facilities which will targely eliminate pollution from municipal waste disposal, I den --Grants to local units of public.
