A suspected case of hepatilis involving a Cambridge Junior, High School student in Garden City caused alarm among parents of an epidemic, but the later was ruled, out late Friday by Acting Deputy Director George Pickett of the Wayne County Health Depk. "We don't believe the case is hepatilis." he told the Observer, "and, it is a very mild case involving one family. There hasn't been an epidemic of hepatitis in Wayne County since the 1950's," he added.
