

# Pentagon Grounds F-111A Jets In Vietnam

WASHINGTON -- The Pentagon announced Monday that the remaining F-111A fighter jets in the Vietnam conflict had been grounded, pending investigation of the loss of two of the planes earlier in the week. Four of the swing-wing, 1,500-mile-an-hour jets remain in the Vietnam theater. The planes had been sent to the war zone for "combat evaluation."

The first plane lost was believed to have gone down over Laos Thursday; the second reportedly crashed Sunday in Thailand.

LONDON -- Prime Minister Wilson was reported considering a shake-up of his cabinet in an attempt to solidify his position.

SANTIAGO, Chile -- A Grace Lines passenger and cargo ship, the Santa Leonor, ran aground and partially sank Sunday in a channel of Chile's southern coast.

MOSCOW -- Yuri A. Gagarin, the world's first space man, who was killed in a plane crash last weekend, was buried Saturday. His ashes were placed in the Kremlin Wall and a mountain of spring flowers were piled in front of the wall as visitors by the thousands thronged to the site.

**STOCKHOLM** -- A new form of "paper gold" was established at a meeting in Stockholm of the 10 richest nations of the free world. France did not approve the move. The new form of money will not actually be circulated, but will be used by central banks and treasuries where it will be regarded as equal for most purposes of international finance, to gold or dollars. The paper gold is intended primarily to finance increased world trade and exchange but would also assist countries, such as the United States, which are spending a broad more than they can earn until they can bring their accounts into balance.

**UNITED NATIONS** -- Israel said at an urgent session of the United Nations security council Sunday that new military blows against Jordan will be the reply against continued raids by Arab guerrillas. Jordan called upon the 15-nation council to impose as harsh penalties upon Israel as possible under the U.N. charter, including an arms embargo.

**PRAGUE** -- The new president of Czechoslovakia, Gen. Ludvik Svoboda, was sworn in Saturday. The 70-year-old war hero, decorated for World War II bravery by the United States, replaces Antonin Novotny, who was forced from power by the nation's new Communist reform leadership. Svoboda immediately pledged loyalty to the Soviet bloc. He is considered as a man who can reassure Moscow that Czechoslovakia will remain an ally, while at the same time allowing the liberalization drive to continue at home. The post of president in Czechoslovakia is largely ceremonial.

**PRAGUE** -- Czechoslovakia's deputy chief judge, who is charged with the investigation of crimes of the Stalinist past, was reported missing this weekend. Dr. Zdenek Brestansky, 42, vanished Thursday after he left his office on the way to a party meeting, the newspaper Prace reported.
