Distressed By Ruling On Moustache

For years educators have been predicting the demise of shool boards as more federal add-state money become available. I, for one, will not mourn this. If school boards continue

the statement has been made that I didn't know what I was talking about respirating other school districts that had had mobular scheduling and discarded it. Frankins and discarded it. Frankins can be seen to be a pilot study. Why was Stevenson as milar plan before Frankins collected by the seen of the seen of the seen of the seen of the districts of the seen of the seen of the entirely and other's grankins of money had been spent it entirely and other's grankins of money had been seen tid instigate these programs and it would have been embarrasing to explain to the tarayars why so much money had been spent it instigate these programs were moduled. The programs were moduled to the seen of the s

ity but

able. J. for one, will not mourp this. If school boards continue practicing the injustices like one the Livonia School Board perpetrated on Charles Murphy. The fact that the school board won the suit does not make them morally right. Anyone, who thinks that there is a correlation between a moustache and discipline had better do a little more research on the subject. The simple fact, occurse, is that there is none. The Livonia Board would do well to spend their time working on ways to improve the school system instead of expending it on depriving students of their civil liberties. This law suit was patients as hid an excellent school system for years: It is certainly one of the best in the state if not the nation. However, this kind of injustice occurs very often, it's reputation as an excellent school system may have to be reevaluated.

EDITOR:

The panic and white racism reported at the meeting of the Kenbrook area people recently was most disturbing.

It certainly is not wrong to ask the Farmington Township Police Department, if it has adequate means to protect the cilizens, illowever, engaging in panic gun bying and violent accusations against people of a different race is another matter, A more useful function for P.T.A. Associations would be to sponsor meetings to listen to and learn about people of other races and thus promote through edge. knowledge, understanding and

No loss a local anductity on "Black Hower?" than live, Albert Cleage said all a raily "Focus; Summer Hope" that Negroes rebuild the innereity. They have no time to be casted flatly that if there is any trouble this summer. Hope that the stated flatly that if there is any trouble this summer it will be started by white people, not by blacks. He said this in front of 4,000 recopel, chiefly white, his were gathered at a raily to promote "Summer Hope," not junic and desjair.

"Black Power," as explained by Ref. Cleare, does not in pive violence or an electrost veature against whites. It's a sist is the building of black responsibility and authority in all areas to humaic culture; education, feature of the production, religion and economics. This means that in a predominately black dreat bulley want predominately black stores with black clerks in a white neighborhood predominately whate telerks.

He stalled calcengreally not be a separation of the Livona Board in a white neighborhood predominately whate telerks.

He stated categorically hat there are absolutely no plans for black power advocates to go into the suburbs. He sho stated, "we couldn't care less whatly ou neople do in the suburbs," and we want you to be burbs, and we want you to be to adopte in the inservety, but, naturally, we would be willing to care a suburbs.
