The hushabye heat.

Soft and low. Gentle and quiet. That's electric heat. It's the quietest heat you can get. If it's radiant, there's no sound at all. If it's a warm-air furnace, the fan runs at a lower speed. Gives only a gentle hum, soft as a lullaby. What else? Electric heat is clean. No fumes. No soot. No draft. No chill one moment nor a burst of hot air the next. The humidity stays in the comfort range.

It's better for you. Your nose and throat. Better for your home. Call Edison for the name of your nearest Edison-approved Electric Heat Contractor. He'll give you a no-obligation survey. And we'll see that you get a \$100 trade-in allowance on your old heating plant.

Electric heat... the hushabye heat. Comforting to have while your little one, your pretty one, sleeps.
