"What is your standard for living?"

Some think the best standard to live by is what "works."

But what "works" today often doesn't "work" tomorrow. Material standards are changeable and fallible.

The only standard that doesn't change is the one that can make the most difference in your life. It is God's spiritual standard of excellence.

In this free public lecture, Norman B. Holmes, C.S.B., a member of The Christian Science Board of Lectureship, cites several specific examples of individuals who have found that adherence to God's standards as presented by Jesus has vastly uplifted their lives, brought better employment, improved human relationships and health itself. Everyone is welcome.
