It Isn't Difficult To Grow Tomatoes

TO AGN to the control of the control

TOMATO PLANTS are very susceptible to cold damage and an be killed by frost, if a light

frost is predicted after plants have been set in the garden, cover them with baskets or paper to protect them for the night and remove the covering

the next day. Here are some planting sug-

gestions:

To prepare the soil for planting, apply a fertilizer, such as 5-10-5 or 5-10-10, at the rate of three pounds per 100 square

of three pounds per 100 square feet.
Select plants that are dark green, medium tall and heavy stemmed. They should have no open flowers or fruit.
Set plants in the ground as soon as possible after buying them, preferably wealing to help avoid drying and wind damage,
SPACE NEEDS differ for staked, nonstaked, standard and

dwarf plants,
Stazed-plants pruned to single
stems need about 20 to 18
inches between plants. Plants
need 18 to 24 inches between
plants. Leave two to four feet
between plants of nonstaked
standard varieties.

If you don't have a few
tomato plants, Use containers
at least; 10 to 12 inches in
diameter and depth to provide
nough soil and nutrition for
proper growth, Larger containers
that have more water-holders that have more water-hold-ing capacity need less atten-tion.

APPLY A starter fertilizer solution when you set plants; The horticulturists recommend a water-soluble starter ferti-lizer that is high in phospho-

Buying On Credit Can Be Good Musicale Sets Annual

Sometimes it's necessary and acceptable to buy with credit, says. Holen E. Bell, extension management specialist of the Fennsylvania State University.
