

# 5 F'ton Areas Face Water Cut

Water service to five residential areas in greater Farmington will be shut off for an estimated nine hours Tuesday night, April 30.

The interruption will affect household habits of the residents in Independence Green Apartments, and the Independence Commons, Woodcroft, Valley Hill and Chatham Hills subdivisions.

Expressing "regret" for the inconvenience, Assistant Superintendent Martin Wiersma of the Oakland County Department of Public Works said service will be discontinued at 9 p.m. Tuesday, April 30. It is hoped it can be restored by 6 a.m. Wednesday.

A construction project of the state Highway Department has made it necessary for the county DPW to relocate a 20-inch water main serving the area, said Wiersma. This work will be done while the water is shut off.

Householders have been advised:

"You may wish to fill some containers with water for cooking and drinking. It may also be advisable to fill your bathtub with water for sanitary use.

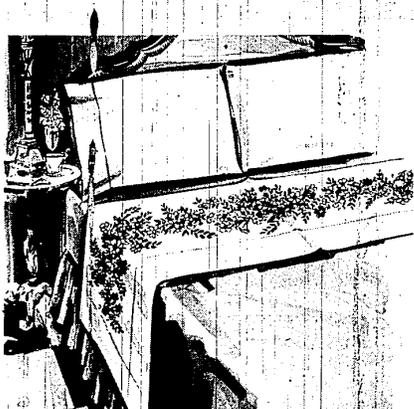

"As you may encounter rusty water after service is restored, it is suggested that you refrain from washing clothes until the water has cleared completely."
