

International Science Fair Comes To Detroit

The best of the nation's young scientists will be in Detroit next week to compete in the International Science Fair—the first time in the 10-year history of the competition that it has been held here.

Winners of more than 400 local and regional fairs in the United States, Canada, Germany, Japan, and other foreign countries will bring their prize-winning exhibits to Cobo Hall beginning Monday, May 13.

Detroit will be represented by Ernest Bernard, 17, a senior at Catholic Central High School, and Dale S. Johnson, 18, a senior at Grosse Pointe High School. The two boys were Grand Award winners in the Metropolitan Detroit Science Fair which was held here in April.

Both the Metropolitan Fair and the International Fair are sponsored by The Detroit News and the Engineering Society of Detroit with contributions from more than 50 Detroit business firms.

SA Officers Elected At Madonna

Madonna College, Livonia, has elected student officers for the next school year. Diane Detamore of Muskegon is the new student association president.

Also elected to the executive council were: Antoinette Sosnowski, Susan Puziol, Christine Kovak and Stella Sczesny.

Miss Detamore, a sophomore nursing student, was president of her class this year. Next year she plans to experiment with a Student Senate, with representatives from each class. Formerly the student association consisted of the entire student body.

Vice president is Antoinette Sosnowski, a social sciences major with an English minor.

A second-year nursing student, Susan Puziol, is corresponding secretary for the coming year.

Newly-elected recording secretary is Christine Kovak, an English major in elementary education.

Stella Sczesny, treasurer, is a social sciences major with a journalism minor.

ELIZABETH GYZYNSKI

Wins National Science Award

A Ladywood High senior is one of 20 students throughout the nation who have been named for Future Scientists of America National Award winners.

Elizabeth M. Gyzynski, daughter of Dr. and Mrs. Waldemar Gyzynski of Livonia, won the honor with her entry "Fractures in the Coefficients of the Binomial Expansion (a-b) m/n."

Miss Gyzynski is the only Michigan student who is a national winner. She plans to enter Michigan State University, where she will major in mathematics, next fall. The award includes a \$200 college assistance scholarship.

Set Conference On Transition To University

More than 2,000 Wayne State University freshmen will share their reactions to collegiate life with their former high school principals and counselors at the 41st annual Principal-Freshman Conference, Wednesday, May 22, in the McGregor Memorial Conference Center, and the Cobo Memorial and College of Education Buildings on campus.

Representatives of 90 secondary schools in Southeastern Michigan will interview students to evaluate their high school courses and the problems they faced in adjusting to University life.

The interviews, being conducted from 9 a.m. to noon, are designed to give high school and University personnel an opportunity to analyze their curriculum and better prepare future students to make the transition from high school to the University.

COLLEGES, CAMPUS SORORITIES and cola were combined last Tuesday afternoon as the Plymouth City Panhellenic introduced Plymouth High School senior girls to the advantages of sorority life during the club's annual "Coke Party." Mrs. Robert Vorech, president, and Mrs. John Murphy, party chairman, show Jan Coxford, Joanna Firestone and Jennifer Bidwell a display of sorority pins.

MARY LYNN DENNING, of 24777 Donald, Redford Township, receives her diploma at University of Detroit graduation ceremonies. She was one of those graduated summa cum laude, with almost a straight-A average.

The College Whirl

CHRISTINE L. MEYERS, daughter of Mr. and Mrs. Ernest Meyers, of 31824 Nottingham Road, Farmington, graduated from the University of Michigan with honors. While at the U of M, Miss Meyers was president of Alpha Phi Sorority, a member of the Executive Council of Mortar Board and a senior editor of the yearbook. She received a teaching certificate along with her degree.

MICHIGAN STATE UNIVERSITY has honored more than 500 students who achieved straight-A records during the winter semester. The list of students, who were feted recently at a banquet given by MSU President Dr. John Hannah, includes 13 from Observerland.

Listed by hometowns, they are: FARMINGTON -- Terrence R. Bacon, of 22918 Maple, a sophomore in mathematics; Michael T. Gale, of 22200 Cass, a senior in mathematics; Elisebeth Regnitz, of 38500 Howard, a senior in political science; Ward J. Starback II, of 29810 Highmeadow Rd., a junior in art practice; Ann C. Sheerer, of 31824 Lamar Dr., a freshman in elementary education.

LIVONIA -- Mark A. Burke, of 11035 Auburndale, a sophomore in general business administration; George E. Lahti, of 9091 Danzig, a senior in electrical engineering; Kathleen L. Williams, of 29575 Winston, a senior in English.

GARDEN CITY -- Annette L. Adams, of 1738 Labers, a freshman in mathematics; Jeri L. Jenkins, of 1363 Radcliffe, a senior in elementary education.

PLYMOUTH -- Judith L. King, of 41688 Greenbriar, a sophomore in communication; WESTLAND -- L.E. Schlanzer, of 6950 Dixon, a senior in psychology.

REDFORD TOWNSHIP -- Carol A. Chapski, of 12946 Brady, a senior in psychology.

LAWRENCE INSTITUTE OF TECHNOLOGY has added the names of three Observerland residents to the dean's honor roll. All are day students who have completed the winter term maintaining at least a 3.5 scholastic average.

MISS DEB

... answers questions about Junior Miss etiquette, grooming and interests.

Q. I finally found MY perfume, an unusual fragrance that couldn't be confused with anyone else's. But, after all my searching, the perfume doesn't last!

A. Maybe you're using perfume in the wrong place! Perfume dabbed behind the ears, contrary to tales told, is strategically placed. Instead put a few drops on pulse spots — the inside of wrists, your temples, the crook of your arm, and along your throat. In the pulse spots, blood is close to the surface and its warmth helps to radiate scent. Another way to use fragrance so it lasts: Put a few drops of perfume on a Kleenex tissue to suck into your bra.

Q. My dry-cleaning expenses last year were over \$50, not including alterations. There must be some way to cut costs.

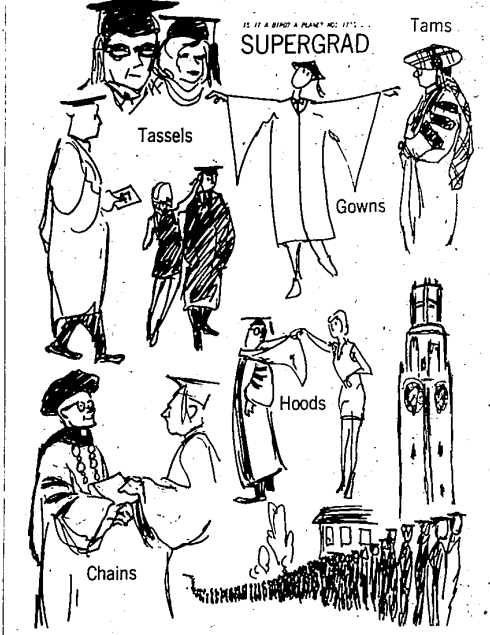

A. There is! Wash everything washable. Sweaters most often look better when washed with a cold-water soap. Many types of fibers join extra bounce and

Q. My Saturdays are sad! Mother makes me help with housework while all my girl friends go to the school ball games or downtown to a movie. Is this fair?

A. It's fair for you to help! All you need is a little change in schedule. Can you get some of your chores done at other times during the week to free some of your time on Saturdays? Try using all the shortcuts you can — and still get the job done well. Kleenex disposable dusters can be used for a day's dusting and then thrown away. If you show Mother you're willing to help her with household work, she'll probably be happy to let you meet your friends on Saturdays — when the work's all done.

How to Watch a Graduation

by Chuck Thurston

Hints Offered For Graduation Watching

At recent University of Detroit graduation ceremonies, artist Charles Thurston picked up these pointers on "How to Watch a Graduation." They might be of some help to the thousands who will attend high school and college graduations this spring.

GOWNS: The bachelor's gown, modeled here with arms extended by Supergrad, has long pointed sleeves. To the right note the doctor's gown embellished by three velvet bars. There are also velvet panels down the front. The velvet may be the color of the degree instead of black. The master's gown has long sleeves with the arms protruding through a slit at the elbow.

TASSELS: Generally worn on the left, both before and after the ceremony, though there are still a few colleges where the tassel is slipped from one side to the other after the degree is received. The tassel has a distinctive color for each discipline: Arts and Letters in white, etc.

TAMS: While the most common headgear is the square mortar board, floppy-tams and other styles are sometimes worn. U. of D. Engineering Dean Lawrence Capar sports a slouch cap.

The public and there is no charge for admission.
