ADDITIONS

To be installed in 1969, the system also will be used in the development of a new management information control system which will prepare management reports for a wide range of plant activities.

It is the second B2500 to be ordered by the firm. The first was ordered last year for installation in its offices at Banbury, Oxfordshire, to handle work for other subsid-iaries and divisions.

ALCAN SAIDTHAT the B2500 was well-suited to computerization of production control at the Rogerstone plant. The system will be of assistance in control at the respective plant which is a second to the state of the

Schultz (right) accepts his plaque as winner of UNRA's 1968 Distinguished Community Service Award. The presentation is being made by William Y. Mathers, president of the United Northwestern Realty Association - Western Wayne-Oakland County Board of Realtors, sponsor of the

## Heating, Wiring Fires Avoidable

We have now entered the peak season for home fires and home fire losses. Although the final figures aren't yet in for 1897, the informed estimate is that U.S. losses in fires of all types soared from \$1.5 billion in 1966 into the \$1.7 billion range last year, and the number of lives lost in fires almost surely topode 1869's hortritying \$53,100. The statistics alone shout to you to review now the fire belief to the state of the sta

WHAT CAN YOU DO to prevent fire in your home is implicit in the top causes of home fires. The biggest single factor, easy the National Fire properly operated heating company to the factor of the properly operated heating equipment, including chimneys as well as furnaces. Other major causes are smoking and matches; imsues of, or faulty, electricity; imshandling of lammable fiulds; accidents with cooking equipment; natural gas leaks.

According to the NFPA, U.S. home fires could be slashed in half if every home bad proper and properly operated heating plants, properly built and unctioning chimneys, sound and adequate electrical wring, and fire resistant roofing. WHAT CAN YOU DO to pre-

adequate electrical wiring, and fire resistant roofing.

Against this background, the most effective moves you can make to protect your home, and your family, become ob-vious.
