

### Winds Hit Midwest

CHICAGO -- The Midwest office of the Insurance Information Institute estimated that in early May, tornadoes and storms in the Midwest and Mississippi Valley caused \$33 million damage.

### Check Stretch

Stretch fabrics are designed with either one-way or two-way stretch. Check pattern to see that the stretch is in the desired direction.

### Finishes Will Wear

The effectiveness of a crease-resistant finish increases with the price of the fabric. But all finishes will break down eventually.

### Recreation Area Rules Designed To Save Wildlife

New regulations have gone into effect which restrict camping, motorbiking, and horseback riding in all state game areas of southern Michigan to protect wildlife management values and make for orderly use, the Conservation Department announced.

The rule changes, adopted recently by the Conservation Commission, limit camping between April 1 and October 1 to posted grounds.

They also restrict horseback riding and motor traffic to designated trails, roads, and parking lots.

Where there is no conflict with its wildlife management programs, the Conservation Department will post trails, roads, and camping areas as open to these uses.

The new controls give top priority to the department's programs to preserve and improve these public lands for wildlife.

### Michigan Starts 9th Travel Unit

LANSING--Construction has started on Michigan's ninth travel information center, the State Highway Commission announced.

The center will be on northbound I-69 near Coldwater and is scheduled to be completed in time to serve autumn vacationers. Ninety per cent of the cost of the \$165,018 project will be paid by the Federal Government.

Recent years have seen motorbikers and others run roughshod over some state game areas. In a number of these southern areas, they have destroyed young trees, eroded hillsides, and generally raised a ruckus to spoil outings of other recreationists.

### 3-Month Freeze

Ground beef will keep up to three months in a freezer, but not any longer for good flavor and quality.

### Deep Saucepan Cuts Boilovers

A five-inch deep, 2 1/2-quart saucepan is designed to prevent boilovers of foods which have a tendency to foam. The deep pan also holds frozen blocks of vegetables. It's available in gold or avocado green. Lid and pan have heavy duty non-stick coatings.

## Make Your Kitchen More Convenient

### Adler-Kay Kitchens

THE ONES FAMILIES FALL IN LOVE WITH

Reg. 204.28

**\$184**
