A pilot program to allow more children to have lunch periods at Kettering Elementary School was approved last week by the Wayne Community Board of Education, whose district includes most of Westland.

The board accepted the program for a one-year period, effective immediately, for the Kettering students for a charge of \$1 per month.

Thomas Blacklock, assistant school superintendent, drafted the experimental lunchroom program, which would have the

this summer cool off with **Bard** air conditioning

\$1 charge cover only the administrative costs of the program and would be used to gain a profit, following numerous requests from parents in the school area.

Blacklock told the parents that under the current school board guidelines for lunchroom use, students must live at least .65 of a mile from school in order to be eligible to eat in the lunchroom.

THERE HAS BEEN a problem in the students walking home and returning to school on time, Blacklock said.

"This has been observed on several occasions, not only in the Kettering area, but in other areas of the school district," Blacklock said.

"Certainly this time factor is a concern, and especially to those youngsters in the elementary grades," he continued.

"I think this problem more specifically applies to the Kettering school because we have a school that has an enrollment of more than 900 students. In order for these students to be dispersed from the immediate area of the school to get home does present a time factor for youngsters to clear the immediate area and get on their way home."

Under his program, children living on Birchwood, Grandview, and Parkwood Streets between Merriman and Gloria, not now eligible to use the school

lunchroom because they live less than .65 of a mile from school, would be able to stay for lunch on payment of \$1, per month.

THE PROGRAM NEXT year would operate from November to the spring vacation period, at which time the Kettering principal will report on its operation, to be reviewed for possible extension for the future.

"A lunchroom committee will be formed as an advisory body in the pilot program," Blacklock continued. "The committee will assist the principal in trying to work out some of the organizational problems that might be connected with the program."

"The program will not be a

Dreaming Vital For Sleeping

Are you sleeping more than usual and still waking up tired? As though you haven't had a good night's rest?

If you are, it's possible that you're not dreaming enough. Sleep research has revealed that dreaming is important to your feeling of well-being. Scientists have found that about 90 minutes after falling asleep, a person develops brain wave patterns similar to those he produces when awake. He shows rapid-eye movements that look as though he might be dreaming.

DURING this period the sleeper is most likely to be dreaming. After about 10 or 15 minutes, he drifts again into what the experts believe is the deepest stage of sleep. The cycle is repeated several times during the night.

Scientists have found that a person who is deprived of this dreaming or REM (rapid eye movement) phase of sleep may not feel well, may be irritable, and, over a longer period, may suffer every more unpleasant symptoms.

So if you wake up tired after a full night's sleep, perhaps you're being deprived of your dream phase.

The trouble could be that you're fighting an old, lumpy mattress instead of relaxing as you should.

Will Discontinue Library Project

The Detroit Metropolitan Library Project will be discontinued June 30 because of a cut-off of federal and state funds. All Metro library cards will expire on that date.

During the project, all Metro card holders from a six-county area were entitled to free walk-in reference service and borrowing privileges from the Metro Detroit Public Library, Woodward at Kirby.

The Detroit Public Library will continue to offer an annual non-resident card for a \$10 fee.
