### Doing It Together . . .

is a wonderful thing. It's wonderful because it shows the strength of the individual and his willingness to help his neighbors and community.

Farmington is about to launch its second annual United Fund Drive and Community Chest. It's a big job, but together we can do it. It is an important job because it is designed to help ourselves and others. That's Americanism in its finest form.

The United Fund and Community Chest is more than just a fund-raising campaign. It is a principle of uniting our efforts in one drive to help those who need help. This year more agencies than ever before are joined in one community package.

Let's prove now that Farmington can pass the test. Let's prove that we can work together for ourselves and our neighbors — Truly United.

### Rough Words . . .

have been leveled at the newspapers of the nation — words that lack reason, responsibility and purpose.

The charges in general are based on fear of the truth. A truth is a sacred principle to every freedom-loving citizen. Your newspaper, whether it is a large metropolitan daily or a small community weekly, is the voice of the people. If it wasn't it wouldn't continue to exist.

This isn't just so many words, it is living fact. That is why once a year the nation celebrates National Newspaper Week. But it is not a tribute to the newspapers themselves, it's a tribute to the people that are the newspapers of the nation.

Often newspapers have been charged with being influenced by "Special Interests". The "special interests" are the American people. There is no greater influence because without readers no newspaper can exist. These Americans must be satisfied — and they want the truth. No single advertiser can overshadow the power of the people.

American newspapers have a job to do. It is a challenge we at The Enterprise accept in black and white — the job of continuing to serve Farmington and its people.

This is your hometown newspaper, not just during National Newspaper Week, October 1 through October 7, but 52 weeks out of the year.

### Peace Stutters . . .

are in the air over Korea, but so are United Nations bombers and fighters.

The tune is a lot different than it was several months ago. And like the pessimistic commentators and columnists, the Reds are stuttering and plenty.

It is time the United Nations talked turkey to the Reds. It is time that the democratic nations of the world reminded Soviet Russia and its satellites that we have and will again back up our ideals with force to insure freedom to those who want freedom.

#### BIBLE COMMENT

#### Leaders, Unlike Achan of Israel, Must Be Righteous

A LEADERS' contribution to the rise or fall of a nation cannot be understated. Achan of Israel is a striking example. A shrewd leader of Israel, Achan succumbed to temptation in the midst of a great victory and greedily stole some of the spoils of his triumph.

## MICHIGAN MIRROR

### INTERPRETING THE NEWS

By GENE ALLEMAN

The twang of bowstrings and the zing of arrows opened October in Michigan forests as a new army of Robin Hoods started a 36-day deer hunting season for archers.

At the same time, the season opened for new withholding tax deductions. Workers will find their first paychecks issued after October 1 subject to new income tax rates, roughly 20 per cent higher than before.

Michigan Democrats are striving for harmony, a quality whose absence has plagued party relations in recent months. Forecasters agree that state Dems will need every asset to beat the G.O.P. in this off-year election.

#### HOOPER SAYS "NO"

Whiteford was then a Washington attorney for the radio corporation, and thanks to Senator Tobey's gruelling cross-examination, it was disclosed that RCA had hired G.P.S. George Moses of New Hampshire to squelch the case. But Hoover, then President, flatly refused to favor the radio corporation, and so did William D. Mitchell, his attorney general.

The wheels of the state's automaking machinery have reached a screaming pitch. Everything is right for production records, wage settlements (raises) promise labor peace, war threats promise customers. The only "it" is whether military production may demand such materials to boot output.

War production will not hurt the auto industry seriously unless the car makers can't get steel. For the rest of it, designs can be changed to reduce chrome trim, copper parts and the like.

Cupid's aim improved about 100 per cent when the Affaire Korea started. Marriage license bureaus reported rushing business. Kent County (Grand Rapids) set a summer record. Now brighter war news forecasts a decline in weddings.

The flight of dollars into "things" was maintained in September with (Continued on Page Eight)

## Looking Back Through The Enterprise Files

**FOURTY YEARS AGO (October 7, 1910)**  
Educational Meeting  
The Ladies Literary Club entertained their husbands, members of the school board and their wives, and teachers at the home of Mrs. Martha Hutton Wednesday evening, October 5. The meeting was opened by an address of welcome by the president, Mrs. Agnes Chamberlain. It being an educational meeting, talks along that line were given by Prof. Goodrich, F. J. Nichols, John Fowen, and Miss Grace Sison.

**FIVE YEARS AGO (October 4, 1945)**  
Bank Remodeling Done  
The Farmington State Bank, through recent remodeling and redecorating, is now prepared to give even better and more complete service than they have in the past.

**TEN YEARS AGO (October 3, 1940)**  
Receives Allotment  
Farmington High School this week received an allotment from the National Youth Administration for the purpose of aiding needy students. Sufficient funds to provide an education for three students were received, according to superintendent Orville E. Dunclee. The cost for taking care of a student set at \$15.00 per term, or a total of \$54 for the three students' first term.

**COVER ROAD BONDS BEING RETIRED**  
Cover road bonds, holdovers from the former system of highways financing under which property owners paid special taxes for new roads adjacent to their property, are being retired at a fast rate. Call Murray D. Van Wagoner, state highway commissioner, says.

**REPUBLICAN CHAIRS, DISHARMONY**  
At the convention seems not to have upset that party's course to present nominee Harry F. Kelly is putting up a good front of pleasure over the G.O.P. state for state efforts, although the convention went against his personal choice for attorney general.

**THE RANKS OF THE UNEMPLOYED**  
are rapidly dividing to nothing. State labor experts foresee in the next two months the most acute labor shortage here since 1943, as Michigan assesses into its arsenal role.

**BUILDING IS IN THE GRIPS**  
of the worst uncertainty in years. Sponsors of many large programs delayed plans after the war, then went ahead recently after giving up the futile wait for lower prices.

**THE WHEELS OF THE STATE'S** automaking machinery have reached a screaming pitch. Everything is right for production records, wage settlements (raises) promise labor peace, war threats promise customers.

War production will not hurt the auto industry seriously unless the car makers can't get steel. For the rest of it, designs can be changed to reduce chrome trim, copper parts and the like.
