## It's Your Township . . .

and your home, are you interested in what happens to them and you?

There are some in this township that believe you just don't care. We won't go along completely with this thinking, but we will have to admit that some action or lack of action in the past indicated plenty of indifference. We refer to the indifference at the polls on election days. We refer to the "what's the difference" attitude on local issues.

These are the points some are talking about when they say they don't care. Again we are not ready to accept that attitude but we will have to admit it's hard to argue down. There are a great many civic-minded, progressive residents in the township. They are interested in their township and are ready to constructively aid its progress. However, there are too many who just don't have the interest. This, however, is infortunately true in many places where self government is concerned.

ever, is unfortunately true in many places where seri government is concerned.

Residents of the township will have an opportunity on October 17 to prove those "some" wrong. But more important, they will have an opportunity to participate in their government — an opportunity few people in this world still enjoy. The first public meeting of the Township Zoning Board will be held at 8:00 p.m. at the Town Hall and it's your meeting. Here is your chance to ask questions, make suggestions or just learn.

just learn.
The Town Hall should be full and running over
October 17. Why? Because it's your township, your
home, and your responsibility to take part in your
government. Are you interested in what happens?

They will ask that you give something in Farmington regardless of your contribution elsewhere. They will ask because Farmington is your home and it needs help, too. Even a portion of your contribution here will insure the continuance of the Farmington and Clarenceville Recreation programs for your boys and girls. It will also aid the local Boy Scouts and Girl Scouts as well as helping to establish a Farmington emergency welfare fund. These are vital local projects that can be aided only through contributions made in Farmington.

A total of \$7,500 must be raised in the next few weeks to meet these. Farmington community needs as well as worthy county and state agencies. That's why the volunteer solicitor that comes to your house will ask that you split your donation if you find it necessary to give elsewhere also. Give as much as you can for your home community — it is home to you and your family.

Let's put Farmington over the top!

## A Talk With Stalin . . .

is basically sound under normal man-to-man conditions. We are confident that Harold Stassen's motives in making such a suggestion are well-meaning. But we remember only a few years ago such a conference between Prime Minister Chamberlain and Adolf Hitler. It was a man-to-mai talk that lulled too many into a temporary sleep and then bolted a world into a rude awakening. The ilan is noble in its purpose. However, we as a nation learned long ago that the Russian word, like the Naza word, is flat and meaningless.

meaningless.

Such aggressor nations car not live by the word.

They know no truth, even among themselves, Russian leaders have had ample proof of out sincerity and desire for peace. They know it themselves, but they are afraid to transfer it honestly to the fire people.

We are not advocating aggresise war, but we are warning against the effect of a "face to face" meeting with Stalin, lest we be lulled into a sleep by false words only to be bolted into a rude awaltening.
