Prisoners To Work
With Lake Mappers
State prisoners will begin work
with conservation department lake
mapping crews early in January.
This will be the first time prison
mappers will have been used on
state fishery projects.

First use of prisoners in improv-
ing Michigan park and recreation
areas, which began in 1948, re-
cently attracted nationwide atten-
tion.

The department's Institute for
fisheries research has selected 50
to 60 lower peninsula lakes for win-
ter mapping. The first stage in
maintaining and improving fish
productivity. Should ice conditions
permit the schedule the remaining
lakes will be scheduled the follow-
ing year.

Two prison crews will be employ-
ed on Oakland, Washenaw, Living-
ston and Jackson county lakes.
Regular sur parties will cover
designated Barry and Gladwin
county lakes.

No upper peninsula lakes will be
mapped in the 1951 winter season.
The institute mapping program is
further advanced along the Straits
with many lakes mapped in the
years CCC help was available.

A muffin tin is an ideal container
for making individually prepared
dishes such as baked apples, stuff-
ed tomatoes or peppers.

When frying fish or meat, a col-
ander turned upside down and plac-
ed over the frying pan will permit
the steam to escape and prevent
grease from splattering the stove
and walls.
