LILLIPUTIAN DREAM—These two men aren't lost in the land of Lailiput. They are Ford Motor Company officials who are using 66 miniature models to study proposed colors for 1932 Fords. The one-eighth scale cars, which are painted with actual baked enamel finishes, were displayed in the styling showroom at Dearborn, Mich. The models do not represent future body styles, but color selections from this group will be applied to a limited number of full-scale models for final approval.

Fishing Laws

The conservation commission will recommend to the attate legislature receivers changes in Middigan fishing laws white of the studies and the state of studies and the experimental lake program earried out by the conservation department's institute of fisherlers research.

If the legislature approves, fisher men will be able to fish throughout the year below highway M-46 for those species on which the season is not closed. This regulation currently is in effect in the unperland northern lower penhasulas. Anglers also would have a significant time of the season of the seas
