Temporary Officers Named To A.A.U.W.

Mrs. Paul Calkins last week was named temporary chairman of a group of 22 women comprising a potential Farmington branch of the Association of American University Women. The women met at her home to hear Mrs. Roy Bradstrum, state membership chairman of the A. A. U. W., explain the purpose, aims, and organizational procedure of the group.

Following the discussion, a committee, with Mrs. Clarence Stoll as chairman, Mrs. Joseph Wolfe, Mrs. Craig Porter, Mrs. Francis Langthorne and Miss Virginia Cooley, was appointed to draw up a set of by-laws for the proposed Farmington branch. The by-laws are to be presented for group approval at the next meeting, to be held at 8 p.m. Thursday, April 26, at the home of Mrs. Royal Davis, 33729 Oakland Avenue.

Women Past 40 Can Veil Their Age

BY EDNA MILES

MANY women, when they reach the far side of forty, decide they are past the age for such fripperies as veils. Actually, they have just achieved the point at which veils are most necessary—and usually—most becoming.

If crow's feet, frown creases or lines have begun to mar the beauty of your face, now's the time to learn about the flattery of veils. In the same way that a softly-shaded light plays down facial imperfections, a bit of netting across your face will veil the tell-tale marks of age.

Experiment a little, until you've found the veil that does most for you. The shape of your face, your hair-do and your hat are all factors to be considered.

Remember, an observer's eye will see the lower edge of the veil as a line across the face. Rarely is it attractive to see a flat, horizontal line sweeping across a woman's face. This tends to make the cheeks look broad.

Round the bottom of the veil upward a bit, following the contour of the cheekbones, or, if it's a long veil, the jaw line.

Silk Fabrics In Good Supply

A look at the available supplies of fabrics on the market this spring finds women very lucky, says Stephanie Beyer Winkler of the Michigan State College school of home economics.

Some of the most luxurious fabrics are becoming more available—especially silk, she reports.

Shantung, an already popular fabric with most women, is appearing in many weights and also is found in a complete range of colors. It is also available in prints.

Silk manufacturers are offering a crisp, sheer organdy either in plain colors or printed. Another fabric which is being promoted is a heavy-weight silk fabric which is designed to be used for the popular pyramid silhouette coat. Several choices can be made from this group. Such fabrics as faille, armure taffeta and surah are readily accepted.

All of these silk fabrics are found in many styles of ready-to-wear or one may choose them from the yard goods department.

Proper care is essential for silk fabrics, the home economist points out. Like all other delicate things, it is first important to find out if the fabric is washable. Many fabrics will bleed or the colors will run when washed. If care is not used in handling the fabrics when wet, they can be ruined.

Never soak fabrics made of silk. Use a mild soap. Should the fabric become limp, or light starch rinse may be used on the light pastel colored fabrics, and a gum arabic rinse for the darker colors.

Installation of officers was held last Wednesday evening at the Town Hall. Installing officers were Mrs. Forrest Sims of Walled Lake Auxiliary, and for the men it was our own past commander Thomas Tardy. Speaker was Comrade Stone of the 5th District.

A very tasty dinner was served to over 60 guests, after which the installation took place.

Life memberships in the National Home at Eaton Rapids were given to Mrs. William Carpenter and the outgoing president, Mrs. Norman Moore. A three year service pin was given Blanche Seebald and a Past President's pin to Mrs. Moore.

The installation ceremony completed, a light luncheon was served. Congratulations to the new officers and a very successful year to all.
