Two Choices . . .

face the voters of the Farmington Township School District in the forthcoming election, Monday, June 11. Only you, the voters, can make the decision. One is to approve the proposed \$1,750,000 school

One is to approve the proposed \$1,750,000 school building program and give your youngsters the necessary facilities for a proper educational program, the other is to further limit their opportunities. There are no other choices! These are cold, bare facts. Superintendent O. E. Dunckel stated at a Citizens' Committee meeting last Thursday night that next year 1,600 elementary youngsters would be on half day sessions and it is inevitable that high school youngsters will be on limited schedules unless some action is taken to provide additional classroom space.

This is the situation today ... what about 1952,

provide additional classroom space.
This is the situation today . . what about 1952,
1953, 1954? A short trip through your schools will
verify the extremely difficult conditions under which
both students and teachers must work. It is the comboth students and teachers must work. It is the community's responsibility to see that proper educational facilities are made available. That is the way it should be. These are your schools, yours to be proud of . . . they represent your contribution to the future of your youngsters and your neighbors' youngsters. The days of shrugging off our responsibilities on Washington of Lansing are over. It is our problem to solve

to solve. Increased interest in our schools must be a vital challenge to all of us, because it is our investment in the future. That interest must start now . . . register, before Saturday, June 2, if you are not already registered, and vote June 11. If you are in doubt as to whether you are registered or not, call the Superintendent's office at the Farmington High School today!

Be a full time citizen of Farmington . . . Register before Saturday, June 2, and vote on Monday, June 11.

Sound Footings . . .

are the start of a good house. The new City Council has, in the last two weeks, laid sound footings for the growth of a more efficient government for the

City of Farmington.

Care and study are important if the foundation is to be secure. Cooperation and understanding must be exercised to the fullest extent if we are to build

be exercised to the fullest extent if we are to build properly. An ever-increasing interest must be taken in the new city government by all the people. Neither the new City Council nor the City Manager can carry all of the load. They can lead but the patience and cooperation of the citizens are vitally important. Through the Council and the Temporary City Manager, action has already begun on an improved street repair program. The prompt action on this program is due largely to the presence of a manager who can devote time to the details of the work. Similar programs of service to the public will be initiated as the formation of the new government developes. Like the repair of streets, they will not all be new projects, but they should, because of a single responsibility, be executed more promptly and more efficiently.

iciently.

Sound footings are being laid for a more progressive community. It will take time and it should take time. Greater interest and cooperation on the part of every citizen can speed the progress and make for a better house to live in.

The Cash Register Is Quiet . .

up in Lansing this week, or maybe it has just plain up and quit. In the stillness, however, you can still hear the ring echoing around the Capitol dome.

In the usual mad rush last Friday the State Legislators rang up over \$500,000,000 in appropriations before they went home. In fact, the cash register door was flying in and out so fast that it just kept right on going long after the money ran out, Just how the auditors are going to balance the books is a problem for even the most sane bookkeepers. But when it comes to the business of government, that doesn't seem to be a primary concern.

Besides, doesn't that echo sound pretty, ringing around up there in the Capitol dome?
