## ROLLING DOWN THE RIVER

By Bob Kettler

So here it is the time of evening when a man likes to relax with a good cigar. If he smokes cigars, but anyway relax, and here we have to get this column rolling. Because if we don't, that fellow from the newspaper will be all over the garage tomorrow, talking about deadlines and where is the column and who has time for a game of Gin Rummy, while he waits for the 'school' to do some work for a change. The guy, who isn't too bright, except in spots, as he drives the beautiful '51 Studebaker Land Cruiser, tells us that maybe we discuss taxes too much. And, says he, 'If you got to mention taxes, why not mention death too, because they are both mighty certain and in some respects death has its advantages. At least it doesn't get worse every time congress meets.'

Now the other day there was a lady in the garage for a bit of inspection that we pass out with each and every new Studebaker. She tells us that her new '51 Studebaker V-8 Commander is the thrill ride of the fifty-one season. As a matter of fact she tells us there is no other car like it on the road for thrilling power, speedy pickup, ease of handling and downright economy. Makes us feel good too, because that is exactly what we think. She also hands out a tip for Mothers and it goes like this: when the small fry want to hang around the house when the mother wants them out in the open air, especially when she is thinking of catching mayflies, let the children they must go out in the sunshine for five minutes, then come in and take a nap. You won't see them again until time for dinner.

Saw a girl pick up the check in a restaurant the other day... must be another war on!

Have you been in to see our master mechanic lately? Now we know and you know the old car needs a periodical tune-up, a complete lubrication and a bit of all around inspection to keep it running properly. But don't keep these things a secret, especially at the new pep and extra performance he can put back in that motor. Why not take him into your confidence? ... now!

Have to leave, but maybe we should tell you that we stopped out a bit last week and went to one spot where we heard a woman sing in a haunting way... at least there was a ghastly resemblance to the original tune.

Yours,

## MEMORIAL DAY

To most of us, Memorial Day means but a few veterans standing on a corner, selling poppies. But what is the real meaning behind all that? Why and for whom do they sell the poppies? Do you know where the money goes, and for what it is used? We have some of the answers for you right here and now.

Every cent which is raised by these thoughtful men will go for veterans of wars of the United States. It will go to help buy artificial legs and arms for the veterans who fought so hard to give us freedom from our enemy. There are many men who can't do any work or have no way to support themselves and must have the help of others to find some work to do.

The money for these poppies can't be wasted. Any amount you give will be appreciated by all, and your generosity will not be forgotten by the many veterans who need your help so badly.

## Senior Starlight

This week we have a very interesting character. For instance, his hobbies: women and troubles. I could think of better hobbies, but then, I'm not a male. The male we are talking about is Harlow Davis, six feet tall, brown eyes and hair.

He is a great lover of sports. Track, swimming, basketball and hunting are among his favorites. Another one of his loves is food. In fact, he'll eat anything edible.

His secret ambition is to own a nice home and convertible, and of course, a garage for the car. What he loves most in school, especially, the 30 minute passes out of classes. His favorite movie star is that glamorous female, "Trigler".

He likes to go anywhere on a date as long as you can have a good time there and what he likes best about a girl is good personality, cooperation, and of course, money.

His pet peeve is excuses and all-

bis, especially from girls, while his past time, not exactly fun, is trying to talk his Dad into letting him have the car.
