Concrete Construction, Inc., ran this 1950 Ford F-1 Pickup with POWER PLANT for 8,189 miles in the nationwide Ford Truck Economy Run. Over 5,000 operators in the Run represented every kind of hauling job, travelled over 50 million miles.

"On Construction Jobs— My Ford Pickup runs for 2 1/4¢ a mile!"

C. W. MILLER, of Concrete Construction, Inc., says: "I switched to a Ford Truck because of savings on operation and repair."

"Address furnished on request."

"Ford's fast getaway in traffic is a money saver, too," says C. W. Miller.

"The daily expense records we kept in the 6-month Ford Truck Economy Run show that the running cost of our Ford F-1 Pickup is only 2.23 cents a mile! We travelled 8,189 miles, with an average load of 1,200 lbs. The cost for gas, oil and maintenance came to only \$182.16. We had no repairs. Of course, we got periodic service check-ups from our Ford Dealer."

Save with Ford Trucks and the POWER PLANT — which gives you the most power from the least gas! It is another reason why more and more buyers are switching to Ford Trucks. 1950 vs. 1949 registration figures show Ford Truck sales gain is over six times greater than all other makes combined!
