**TRAFFIC DEATHS SHOW DROP, BUT INJURIES SOAR** The upward trend in Michigan traffic deaths which prevailed for six consecutive months halted in April when 115 persons were killed, 21 fewer than during the same month last year. According to the State Police monthly statistical report, however, injuries and accidents increased sharply. The report also pointed out that the fatality total of 139 during April of 1950 was exceptionally high for that month, accounting to some extent for the decline in April this year. There were 3,504 persons injured, an increase of 750, or 25 per cent, over the 3,114 injured in April of last year. Accidents totaled 12,122, up 2,098 or 18 per cent, over 11,114. Both injuries and accidents have shown increases for eleven consecutive months with the exception of a slight reduction in injuries in February.
