Do you have Series E Defense Bonds coming due this year?

## Here's a money-earning opportunity for you!

Now—a new law lets your maturing Series E Bonds go on earning for you ten years longer! And you don't have to do a thing!

Are you one of those patriotic citizens Awho began buying -and holding-U.S. Scries E Bohds back in 1941? Now your government is going to reward your faith with a chance for your bonds to earn erru moncy-over and above what you'd expected!

moncy—over and above what you despected: According to the bill passed by Congress last spring, it is now possible for your U. S. Series E Bonds to continue earning for ten years longer than was originally planned. For example, a Series E Bond which cost you \$18.75 in 1941 will pay you \$25 in 1551. But if you hold that bond ten extra years, until 1961, it will pay you \$33.33, an aver-age interest of 2.9%.

And there is nothing for you, as a bond holder, to do. You simply keep your bonds as you have been keeping them.

kceping them. You may still redeem any Series E Bond at any time after you've owned it for sixty days. (The tables on this page show what you can get for it.) But, unless you really need the cash your much better of to hold your bonds. Cash is too easily spent on nonessential things. And if you loss or accidentally destroy it, you're out that much money. But when you have eash in Defense Bonds, you're more apt to hold on bit. And if you're hout stat or destroyed, the Treasury will replace them for you at no cost.

Treasury win replace them for you as he cash The cash you have in bond savings is safe and solld; and it's steadily growing toward a sum big enough to buy a dream something really worth while— a home, a business, a retirement fund, an educa-tion for your children.

So if you have bonds coming due, take advantage of this new offer-juits at hack and let them go on making money. Meanwhile keep adding to your savings by buying more U.S. Defense Bonds regularly—through the Payroll Sav-ings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income-The new law also allows you to exchange your Series E Bonda, in Hocks of \$500 or more, for Special Series G Bonda which pay interest semiannually at the rate of 2½% per year. For full distails, ask at any Federal Re-serve Bank or Branch.
