MOTHERS BEWARE OF VITAMIN DEFICIENCY!

NOT THIS

VITAMIN-MINERAL DEFICIENCY in many cases causes children to be listless, dull, to suffer a loss of appetite, to be unable to enjoy healthful recreation and to be an easy victim of disease. Because of vitamin-mineral deficiency, school work may suffer due to nervousness and lack of concentration. Research testing ORVITA, a vitamin-mineral tonic containing the elements which make B-12 has helped to overcome many of these conditions.

BUT THIS

HEALTHY CHILDREN ARE HAPPY CHILDREN. Many doctors concede that vitamin B-12 is one of the most important vitamins ever discovered. Mothers, who care, protect their children's health with pleasant tasting ORVITA, a balanced formula which, when taken according to directions, will supply the daily minimum requirement of the basic vitamins and minerals PLUS the amazing red vitamin B-12.

Doctors concede that Vitamin B-12 is one of the most important vitamins ever discovered. The importance of Vitamin B-12 has been established by many articles which have appeared nationally, such as the article written by Paul de Kruif which appeared in the "Reader's Digest" and other national publications. Vitamin B-12 is now contained in a liquid vitamin-mineral tonic ORVITA, which also contains the other vitamins and minerals needed for perfect health.

NO ORVITA LIQUID VITAMIN-MINERAL TONIC WITH CRYSTALLINE B12

MRS. EDITH MILLER OF ALTADENA, CALIF., writes: We were having quite a lot of trouble with Sandra, our five year old daughter. She was nervous, listless and listless. She couldn't get along with other children in school or on the playground. And, it seemed she always had the colic or didn't feel well. Our doctor suggested a vitamin and mineral supplement as a possible solution. Well, Sandra would not take pills under any circumstances. We were really at our wits' end when we dropped her on ORVITA, which supplied the necessary vitamins and minerals, and explained that it was in liquid form and contained B-12. At first I put ORVITA in Sandra's milk but she wouldn't take it. But now, she says she likes it. She gets and gets the ORVITA herself without even being told, and the difference in her health and behavior is simply amazing. Sandra now is one of the most popular children in her class and is doing very well in her studies. Her health is perfect, no more colic or nervousness. She is full of energy and has lost all her weight. So you see for a vitamin-mineral tonic ORVITA.

MRS. MARGARET AYRES OF NO. HOLLY, WOOD, CALIF., just over six years old son, RUDY, suffered cold after cold and contracted a chronic coughing spell. He was nervous and listless and his school work suffered. My doctor recommended vitamin and mineral supplement to his diet. But, it was nearly impossible to force him to take pills or capsules. There was a great deal of trouble with ORVITA, the almost immediate change was noticeable. But Sandra enjoyed the pleasant tasting liquid and now even asks for it. He has no longer been nervous and upset. His school work has improved to the point where he is one of the leaders in his class, as well as taking part in playground activities. Thank you so much for this wonderful ORVITA. It certainly has improved our family life.

MR. ALLAN BERGMAN OF CHICAGO, CALIF., HAS THIS TO SAY: My son, Dan, is 11 years old and I wasn't getting along at all. Like all fathers, I was worried about him. He was nervous, listless and listless. He couldn't get along with other children in school or on the playground. And, it seemed he always had the colic or didn't feel well. Our doctor suggested a vitamin and mineral supplement as a possible solution. Well, Dan would not take pills under any circumstances. We were really at our wits' end when we dropped him on ORVITA, which supplied the necessary vitamins and minerals, and explained that it was in liquid form and contained B-12. At first I put ORVITA in Dan's milk but he wouldn't take it. But now, he says he likes it. He gets and gets the ORVITA himself without even being told, and the difference in his health and behavior is simply amazing. Dan now is one of the most popular children in his class and is doing very well in his studies. His health is perfect, no more colic or nervousness. He is full of energy and has lost all his weight. So you see for a vitamin-mineral tonic ORVITA.

A letter from Mrs. Ruth Marsh of Van Nuys says: I would like you to know what my son, Dan, is 11 years old and I wasn't getting along at all. Like all fathers, I was worried about him. He was nervous, listless and listless. He couldn't get along with other children in school or on the playground. And, it seemed he always had the colic or didn't feel well. Our doctor suggested a vitamin and mineral supplement as a possible solution. Well, Dan would not take pills under any circumstances. We were really at our wits' end when we dropped him on ORVITA, which supplied the necessary vitamins and minerals, and explained that it was in liquid form and contained B-12. At first I put ORVITA in Dan's milk but he wouldn't take it. But now, he says he likes it. So you see for a vitamin-mineral tonic ORVITA.

HEALTH... ENERGY

ORVITA is the net result of years of patient study and experimentation. ORVITA is sensational because for the first time, vitamins with minerals plus Bio-Chemistry's latest contribution to good health, Vitamin B-12, are now combined in a pleasurable tasting liquid. A recent survey indicated 8 out of 10 children either refused to take pills or capsules or took them under duress and nervous strain. ORVITA is the answer for these 8 out of 10 children who find it difficult to swallow pills and capsules. ORVITA brings the benefits of the most expensive vitamin-mineral combinations of a new all-around low cost. HEALTHY CHILDREN ARE HAPPY CHILDREN. A recent survey indicated 97% of average Americans were deficient in one or more vitamins or minerals. ORVITA is the balanced formula which, when taken according to directions, will supply the daily minimum requirement of the basic vitamins and minerals plus B-12. Mothers who care, protect their children's health by keeping a good supply of ORVITA on hand. ORVITA is the simple, inexpensive way to insure that your children will not become vitamin-mineral deficient.
