closing—fire when ready!"

In a matter of seconds this alert, crack gun crew has flashed into action! Locating, identifying, tracking, and ready to fire on any enemy plane that threatens their fast moving U. S. Navy Carrier.

Precision teamwork like this makes your U. S. Navy the mightiest in the world. And keeps it on the job 24 hours a day, ready to defend America—and you! But remember, defense is your job, too! And one of the best ways to do your job is to buy U. S. Defense Bonds regularly! For by buying bonds you help maintain the economic strength which stands behind our armed forces. You're making America a power for peace. And you're also making the soundest personal investment in the world today. For Defense Bonds are as safe as America!

The U. S. Defense Bonds you buy give you personal financial independence

Remember that when you're buying Defense Bonds you're building cash savings. Money that will some day buy you a house or educate your children, or support you when you retire. Remember, too, that if you don't save regularly, you generally don't save at all. So go to your company's pay office—now—and sign up to buy Defense Bonds through the Payroll Savings Plan.

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own automatically goes on earning interest for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.81! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's, too, buy U. S. Defense Bonds now!

*U. S. Savings Bonds are Defense Bonds
Buy them regularly!

Brother! that FORDOMATIC*

It's the newest, finest,
most flexible Automatic Drive ever!

Combines all the best features of earlier automatics. It gives you the smoothness and flexibility found only when automatically operated mechanical gears are combined with a torque converter. And it keeps Ford as savingful as ever!

FLASHING GETAWAY. Fordomatic offers you getaway that will take your breath away. Intermediate gear and torque converter combine to give you fast, smooth starts—automatically—even from a standstill.

EASIER ROCKING. Stuck in mud, sand, or snow? You'll find it's even easier to "rock" out with Fordomatic than with a conventional transmission. Just more the selector between low and reverse. No clutch to push... no gears to clash.

ENGINE BRAKING ON HILLS. You're safe on hills with Fordomatic, too. The engine actually helps slow the car down when you want it to. Even at high speeds you can flip the selector to low (Lo) and the drive automatically reverts to a lower gear.

INSTANT ACCELERATION. When you want extra power for passing or hill-climbing, just step down on the gas pedal and Fordomatic automatically shifts you down into an "acceleration" gear... release your pedal pressure and you're back in high!

● The '51 Ford offers power to match America's finest cars. It's savingful power, too, thanks to Ford's Automatic Mileage Maker, which squeezes the last ounce of power out of every drop of gas. And your ride is smooth as silk, with Ford's new Automatic Ride Control ironing out the bumps. These are but a few of the 43 "Look Ahead" features in the '51 Ford.
