Let's show our faith in Freedom now-SWS CLARK GABLE

**R**<sub>EMEMBER</sub> how we all went to bat for this country in World War III We did it because when our way of life was threatened, we suddenly realized that it was worth fighting for Well, that way of life is still threatened. By people who don't believe in every little guy having a chance. America needs defending now, and not by our armed services alone. Defense is our job, too!

That's the reason for our government's big Defense Bond Drive.

Bond Drive.

To help you build your financial independence through Bonds and other forms of saving. Because America's strength is in the personal financial security of her citizens. And remember, peace is for the strong!

So during this Defense Bond Drive sign up to huy an extra bond. Buy your bond today—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank. Then buy bonds regulary, John the 183,000,000 Americans who already held over \$87 billion worth of U.S. Defense Bonds as their share in America.

## The U.S. Defense Bonds you buy give you personal financial independence

porsonal financial independence

Don't forget that bonds are nown a better buy than ever. Because now every Series B Bond you out, can automatically go one earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25-but as much as \$3.33 / 8 \$375 bond pays \$66.66. And so on. And romember, bankers recommend United States Defense Bonds as one of the sate of the same of investment.

<sup>Make</sup> today your D day buy an <u>extra</u> bond afer investment in the world for Defense today . . . U. S. Defense Bonds!

The U.S. Government does not pay for this a tising. The Treasury Department thanks, for patriotic donation, the Advertising Council
