Sincerely Yours:

Letters submitted to the Editor for publication must be signed. Opinions expressed in this column are those of the writer and do not necessarily represent the policies of this newspaper.

To the Editor:

I am enclosing \$2.50 to renew my subscription, while I am doing I would like to get a few things off my chest.

About a year or so ago I wrote you a letter saying that "people didn't enjoy living in such a town as Farmington, Mich."

You wrote an Editor's note to the effect that as long as we had a free country, people could live in it, if they wanted to. Now you seem to have changed your mind, going all out for this zoning ordinance the way you have. I guess they can live in place as long as they stay some place else, is that right?

I know you say that it isn't for the purpose of keeping people from building the home they can afford, but that is what it amounts to. I am not writing this to belittle the ordinance, I don't care if it passes or not. What I would like to see, is people having the chance to build a decent home when they need it, when their children are young and growing, not when they are sixty or seventy and the children gone.

If you, and other newspapers would spend more time and energy, trying to really help the people instead of combating their every wishes we would be much better off.

What we need are low interest government loans, to build decent homes while our children are young. After all life is quite short, why can't we enjoy it as well as people that have the money. I know some people reading this are saying, "that guy is a communist." Well I have always been told that communism is bad, and I can't see where anything I have said is bad. On the contrary it is not only would be good, but it will be that way some day, so why not start working for it now?

Another thing I would like some information on, is why do we (in Farmington) have to pay for schoolbuses, and the children only go part time to school? Our friends in Livonia and Detroit think that is awful, and so do we. Especially paying for books, what is the reason for it when they don't have to, why should we?

Sincerely Yours,

Russell Lacroix

(Ed. Note) The Enterprise has been in favor of the present zoning ordinance since its first draft and never in the course of its development have we changed our mind. At no time have we suggested that people live in tents, nor have we ever added editor's notes to controversial letters, this time excepted, of course. We just want to keep the records straight.

TO RETURN TALENTS AT UNIVERSALIST CHURCH SUNDAY

This Sunday promises to be a big day at the Farmington Universalist Church, Warner and Thomas Streets. Members will participate in a talent ingathering, a fellowship dinner and the annual meeting and election of officers.

Dr. Frank D. Adams, the minister, has announced that he will dispense with the sermon at the 11 a.m. service and that at that hour the return of the talents will be received.

The church treasurer entrusted each member with a sum of money last spring, with instructions to employ it in a profitable manner in the Lord's work, in the manner of the Parable of the Talents in the Bible. At this Sunday's service each person will turn over his talent and its accrual to the special treasurer of the building fund, Mrs. George Tod Leonard, and will recount his experience in making his talent grow.

The members have engaged in a wide variety of enterprise, and the reports will be awaited with interest. All the money will apply on the ambitious remodeling project in which the church is now engaged.

The fellowship dinner to follow the morning service will include a planned meal prepared under the direction of the Women's Association, which members and friends are invited to supplement with dishes of their choosing.

The annual meeting will be held after the dinner with Max Hulet, chairman of the board of trustees, presiding. Officers for the year will be chosen and reports made concerning the building program and the forthcoming centennial celebration two years hence.
