WAR ON PIGGY BANK
The Bureau of the Mint has privately declared war on that trusty
receptacle of America's loose
change, the piggy bank. It's all because of the shortage of pennies.
The government has something
like 19,197,534,000 pennies outstanding and another 175,000,000 were
minted during the month of October. However, there's still a big
shortage, forcing many banks to
ration their outlay of pennies.
