Discuss Plan To Bring All Township **Roads Up To County Specifications**

Tentative agreement was given by the Farmington Township Board Tuesday evening to a suggestion for setting up a definite long-range plan on the rebuilding of township roads. Ward Eagle presented the suggestion during a discussion of road repairs. He pointed out that the Township should expend its money and effort in the rebuilding of township roads in order to bring them up to county specifications rather than a continual irepair pro-gram which never seems to end. Once roads are brought up to county specifications and approved the county takes them over for mainten-ance. The various Board members expressed agreement with the plan. It was also suggested that a committee b formed to inspect securing of a survey and construc-tion bids.
