Picnickers Haunt State Parks In Balmey December
Eternal urge to picnic fans among the slightest encouragement from the weatherman.
The hot dog clan is making the most of early December balmy weather at Grand Haven and Warren Dunes state parks on Lake Michigan, conservation department park managers report.

Law School Alumni To Hold Cocktail Party
The University of Detroit Law School Alumni, at the last meeting of its board of directors, set February 15, 1952, as the date of its first annual Cocktail Party, to be held this year at the Savoyard Room in the Dahl Building between the hours of 4:00 and 6:00 p.m.

**"Germ" Warfare Not New
Civil Defense Authorities Define
Biological Warfare As Old Stuff**

(Editor's Note: This is the first of a series of six short articles on biological warfare prepared by the Michigan Office of Civil Defense. The purpose of these articles is to outline the dangers of biological warfare and to describe the counter measures that can be taken. This material is based on the Civil Defense booklet "What You Should Know About Biological Warfare.")
What is biological warfare? Biological warfare is the technique, well-known to our enemies of attacking this nation with living agents such as plant-killing insects, with poisons or toxins, such as those that come from bacteria, and with special kinds of chemicals, such as weed killers. Biological warfare is often called "germ warfare", but actually it is broader than that because it includes attack with chemical agents.
Biological warfare, Civil Defense officials emphasize, is a special weapon for use against special targets. It does not kill or sicken every person in a whole state or even in one city.
Attacks by insects, toxins or chemicals can be aimed at people, animals or food crops, or all three at once. Such attacks can be launched by the armed forces of an enemy nation or by secret agents. Biological warfare is not a secret super weapon, CD experts state.

Sixty Scout Leaders Hold Information Meet

Almost sixty representatives of churches, clubs and associations sponsoring Oakland Circle District Scout Troops met recently to learn more about the Scout program and to discover new ways and means of making Scouting more effective in their communities.
Kenneth A. Anderson, district chairman, presided at the meeting which was held at the Union Lake School in Commerce Township.
Mason A. Case, Clinton Valley Council president, was guest speaker and told of the operation of the Council and the duties of the Executive Board. Small discussion groups were then held in which each person had an opportunity to discuss problems in which they were particularly interested. These group discussions were led by Arthur Selden of Fourtowns; L. C. Churchill, Westland; William Burnum, Farmington; Noland Brown, Walled Lake; and Robert Skellenger, Novi.
John Hunt, Clinton Valley Council Commissioner, awarded Universal Scouters Pins to each Institutional Representative present. "Thanks" awards given for the organization of two new Scout units each were presented to Robert Skellenger and A. J. Stilwell of Cass Lakeside.
Almost every television station in the country has presented coal mining films made available by Bituminous Coal Institute, Washington, D. C.

Wayne University Gets Navy Grant For Studies

A grant of \$3,792 to Wayne University from the Department of the Navy to conduct certain mathematical studies in Wayne's Computation Laboratory was approved at a recent meeting of the Detroit Board of Education.
According to Dr. Keith R. Symon, assistant professor of physics who is in charge of the research, the problem will involve calculating wave functions for the mercury atom according to relativistic quantum mechanics.
Dr. Arvid W. Jacobson, director of the Computation Laboratory, is to be chief investigator of operations for the project. The problem is expected to take approximately five months to solve by using the differential analyzer.
While democracy must have its organization and controls, its vital breath is individual liberty.

Obituary

Sarah Case
Mrs. Sarah Case, a former Farmington resident and wife of the late James Case, died December 1 in Oswego, New York. She lived in Farmington for eleven years and moved to Oswego in 1946.
She is survived by two sons, Thomas and James of Michigan, a daughter Mrs. Vincent Melji of Oswego, New York, and seven grandchildren.
To Start Paper Drive
Members of Boy Scout Troop 109, Middlebelt School, will hold a paper drive from December 26 through January 1. Persons with papers to donate are asked to phone Farmington 21223 or leave the papers in the rear of Curt Hall's parking lot on Grand River Avenue.
