Before you go on vacation . . .
Re-tire with world-famous

DUNLOP TIRES

DUNLOP BRINGS YOU THE NEWEST "78" SERIES PROFILE WITH ADVANCED TREAD DESIGN, IN 4-PLY POLYESTER CORD CONSTRUCTION.

Dunlop has married smooth-riding, full 4-ply polyester cord construction to the most modern tire configuration -- the low, ground-hugging "78" Series profile that gives stability and control and long mileage. Dunlop pioneered this Optimum Profile-wide-tread design, proven best for performance and long wear. This Sport's wide, flat, 7-rib tread provides up to 14,420 biting edges to give you fantastic grip. On wet pavement, tread grooves provide free water passage to prevent aquaplaning, and traction sills squeeze your path through the moisture film that remains.
