

**CAMPING TRAILERS** -- Sometimes called a tent trailer or camper. Normally collapses for towing and expands for camping. Inexpensive, this unit maintains a low profile which offers less wind resistance on the road and improved vision from the towing vehicle. Some are fiberglass, others canvas.

**MOTORHOMES** -- Built on truck frames, motorhomes range in length from 15 to 35 feet. Usually this unit is self-contained and carries its own generator power plant.

**VANS** -- Van conversions or mini-homes are much like motorhomes but are built by installing equipment into a standard manufactured van-type truck.
