

**HOURS OF WORK** -- Mrs. George Hudson of Plymouth sands this old beauty. She has finished cleaning the panels in the right hand door, bringing out the interesting pattern in the pierced tin. The safe is an unusual combination of oak and pine.

**PIE SAFES ARE USEFUL** antiques in the Gordon Andrews' home. They have four, and Sharon Andrews, another Plymouthite, prefers them to chests of drawers. The one (at left) in her son's bedroom, was stripped down to the original pine and cherry. For the master bedroom (below) the pine safe was painted and antiques with curtains replacing the original panels.
