

HANDWORK BY MEMBERS OF THE Plymouth branch of the Women's National Farm and Garden Association was on display during a spring meeting. Admiring it are Mrs. Dora Hondorp, left, and Mrs. Betty Norman.

SOME FRONT-RUNNING NEWCOMERS to the hobby field are a ceramic music box at the left, a plaque with a three-dimensional design, a mod-podge picture and antiqued plasterware. In front is a sample of icopage.

RAGGEDY ANN and Raggedy Andy dolls nestle in a crib of crocheted shawls and purses. (Observer photos by Bob Woodring)

WHAT'S THIS MAN POINTING AT?...

  
JACK HIMSELF

Could be a bird... could be a plane  
... wait? It's a plane?  
And not an ordinary garden-varietry plane, either.  
All of which gives us the opportunity to inform you  
that Jack is well-stocked  
with model airplanes from  
49 cents to 49 dollars. So  
whether you opt for a  
"rubber-powered free  
flight" model (el cheapo) or  
a radio controlled job  
(slightly higher) you really  
ought to fly over to
