Little Leaf LINDEN

ALL SIZES FROM 1 1/2"
to 6" in DIAMETER

The uniform shape and graceful, dark, glossy green foliage make it an excellent specimen. Fragrant, creamy white flowers in late June and early July enhances its beauty and make this tree a quality item for any home owner. Does well under city conditions and is a splendid tree for street and residential use. Disease free. Seeing is believing.

MORaine LOCUST

The delicate green foliage of this graceful tree, its fast growth and resistance to disease and insects have made the Moraine Locust America's favorite tree. It attains a twenty-five ft. height in just seven years. ... fine lawn grasses grow luxuriantly right up to the base of the tree yet its filtered light does not permit crab grass to germinate. ... safe in high winds because its fine leaves offer less resistance.
