This continual knocking of the D. U. R. on the part of a few news papers 'gives us a clear cut pain. There never was a city in the world where the street railway wasn't continually hammered and knocked, whether the service was bad or good, and the D. U. R seems to be getting her share. The service on the crowded city streets is naturally not so good as the cities where the elevated and the tubes operate, but it is far superior to most of those that we have seen where surface cars alone are oper And the interurban service is so far ahead of most service that a comparison cannot even be made. While not opposed to municipal ownership of some things, we believe that the railway system is under better control as private corporation as compared to nivate corporation as compared to a municipal one. Under the pres-ent system, if something goes weong the city or village can order the same adjusted. Under the municipal plan if the service gets rotten you generally have to wait a year or so, or until another elec tion for, a righting of the wr Sometimes, it's a good plan to let well enough alone

air that honks the horn.

No matter in what town you hap-pen to be, someone will sooner or later tell you that that particular town has "the meanest bunch of kids on earth." In fact Farmington is no exception, and while we believe that in all probabilities they are no better or worse than thelaverage, yet many persons are inclined to the belief that the average is none too good. It's just as natural for a boy to get into nischief as it is for him to grow from a little shaver into a big man and the boy who hasn't some of these traits very seldom gets very
