# Retirees, Retarded Can Help Each Other Live

Companienship, extra income and help in maintaining extra funds for teaching skills their home are fringe benefits related persons can enjoy by opening their homes to middly retarded adults.

The Wayne Region Service and Training Center, a unit of the State Dopt. of Mental Health, isattempting to match senior citizens with retarded adults in a new program which they hope can meet the needs of both groups.

Martia Dickerson and Mary Ann Shetzer are spearheading with the proposed of the state of

Martha Dickerson and Mary Ann Shetzer are spearheading a drive to find homes for high functioning, retarded adults who are currently living in group homes in Detroit. "WE ARE trying to meet the needs of two slices of the population," Mrs. Dickerson said.

iu. Retarded adults are capable

said.

Grain det adults are capable of taking care of themselves and personning small tasks being care of themselves and personning small tasks being care of the small tasks. And many senior citizens are struggling to keep up with property taxes and maintain their homes.

"This could greatly benefit many senior citizens living on limited incomes and finding it more difficult to maintain their homes as they did in their younger days." Plymouth Mayor James McKeon said.

The family or single homeowner will be paid \$5 per day per person for room and

#### Sales Managers To Meet

person.

"THE PEOPLE we have ready to place are high functioning, retarded adults in need of an opportunity to show their self - worth by being a part of a home situation where they can do tasks such as wash dishes, clean the house, work in the yard and run small ferrands," said Peter Schweitzer, director of community relations at Plymouth State Home.

Currently, retarded individuals live in group homes of Detroit. By letting the program will also free space of person homes for people who are currently in institutions.

The PEOPLE we related similarity of the program will get stimulation from helping womeone, and the related will have a different role in life and a feeling of self - worth if the part of the program will also free space and the program will also free space and program will get stimulation from helping someone, and the retarded will have a different role in life and a feeling of self - worth if the program will get simulation from helping someone, and the retarded will have a different role in life and a feeling of self - worth if the program will also free space and a feeling of self - worth if the program will get simulation from helping and a feeling of self - worth if the program will also free space and a feeling of self - worth if the program will also free space and a feeling of self - worth if the program will get also free space and a feeli
